# North's Secretary Destroyed Files, Is Given Immunity

By Philip Shenon

New York Times Service

WASHINGTON — The person-

al secretary to Lieutenant Colonel Oliver L. North has been granted immunity by a special prosecutor and has acknowledged that she destroyed internal National Security Council documents in the hours before the Justice Department planned to review the colonel's files, her lawyer said The secretary, Fawn Hall, spent

U.S. investigators are puzzled by a large cache of moclaimed arms in Honduras. Page 6.

nearly an hour destroying the docu-ments in what she believed was a "routine shredding" of classified National Security Council materithe lawyer. Plato Cacheria, said

Saturday.

Mr. Cacheris said in an interview that Colonel North, who has become a focus of the investigation of the lran-contra affair, apparently did not order the shredding but was aware that Ms. Hall was destroying the documents, including computer messages, and did not stop it.

"No one particularly told her,"
the lawyer said. "It was done as
part of a routine shredding. That's
her version."

The day after the reported shredding, Justice Department investigators trying to unravel the U.S. arms sale to Iran arrived at the National Security Council offices at the White House and went through the files of Colonel North and others. Sources said Saturday night that it was clear that the special prose-cutor in the Iran-contra affair, Lawrence E. Walsh, was attempt-

justice against Colonel North, in which the testimony of Ms. Hall could be central. Destruction of the documents was first reported in Sunday's edition of The Washing-

Mr. Cacheris would not comment on Mr. Walsh's intentions. The lawyer said that Ms. Hall, who had been Colonel North's secretary for four years, had been granted immunity "within the past several weeks" after "haggling" with the special prosecutor's office.

In a related development, another source said federal investigators had been unable to find documentation of key meetings held by Vice Admiral John M. Poindexter, the former national security adviser, regarding the Iran arms sale. There do not appear to be Poin-dexter's records of certain meetings, records that are quite central to the affair," the source said.

Last year, federal law-enforce-ment officials reported that Colo-nel North, Admiral Poindexter and others at the National Security Council had probably destroyed stacks of classified documents just before Justice Department investi-gators arrived to begin an inquiry into the sale of arms to Iran.

The investigation, on the week-end of Nov. 22-23, found evidence that millions of dollars from the weapons sale had been secretly, perhaps illegally, diverted for use by Nicaraguan rebels, known as contras. Colonel North has been identified as the White House official who oversaw the arms sale and the diversion of money.

MOSCOW (UPI) — Andrei D. Sakharov demanded Sanday the release of a well-known Soviet human rights activist and warned that U.S. Soviet leader, Mikhail S. Gorbachev, would not be taken seriously if

dissidents remained in prison.

Mr. Sakharov, who was freed in December after seven years of internal exile, said that Genrikh Altumian, 53, had been refused a pardon because

he would not guarantee to not resume his former activities.

"Altunian was one of the first people to tell the world about violations of human rights, from a moral point of view," Mr. Sakharov said. "This is everyone's affair." Mr. Altunian was jailed for three years in 1969 tar his work as a human rights activist. He was arrested again in 1969 and sentenced to seven years in a labor camp and five years of internal calle.

# Maputo Reports Major Rebel Attack

MAPUTO, Mozambique (Reuters) — Rebels killed about 50 people in a guerrilla attack on the main tea-producing center in northern Mozambique, the Mozambique news agency reported Sunday.

They destroyed much of the equipment at five factories that hid recently been rehabilitated at a cost of about \$30 million, the agencystid. The attack at Muepagina, in Zambezia Province, about 100 miles 162 kilometers) east of the Malawi border, began on Feb. 12.

The agency said that the army had regained control of the area but has some of the factories were still burning on Friday.

## Israel Offer to Raid Reactor Reported

TEL AVIV (AP) - Israel went to India three times to propose a joint attack on Pakistan's nuclear weapons reactor but was turned down each time, according to a report in the Jerusalem Post.

The front-page report by the newspaper's London correspondent, David Horowitz, quoted unidentified "top-level political analysis" in London. The report said that the proposals were made in recent years but did not daborate

did not claborate.

The Indian Air Force is not capable of bombing the reactor at Kalana outside Islamabad, Pakistan, with sufficient accuracy to ensure its destruction, but the Israel Air Force could do the job, the analysis were quoted as saying. The report said that Israel was provided with detailed satellite photographs and other top-secret U.S. intelligence concerning the plant by Jouathan Jay Pollard, the U.S. civilian naval intelligence analyst convicted of spying for Israel.

### Transkei Detains an AFP Reporter

JOHANNESBURG (AFP) — Security police in the nominally inde-pendent tribal homeland of Transkei have detained a South African ournalist working for Agence France-Presse, a spokesman for the Trans-

ker police said Sunday.

The spokesman would only say that the reporter, Graham Brown, 39, had been detained by the security police on Saturday. He refused to claborate, referring questions to the security branch, which could not be

Mr. Brown was in Transkei covering the aftermath of an attempted comp Thursday in Ciskei, one of four homelands along with Transkei that have been designated independent by South Africa but that are not recognized by any other government. Ciskei accused Transkei officials of backing the coup attempt.

### Israel Shuts 2 Palestinian Universities

JERUSALEM (Renters) - Israeli authorities closed two Palesian gan's involvement in action aimed universities Sunday in the occupied West Bank and Gaza Strip after anti-Israel protests in which Palestinians said seven students were injured and

The army denied there were arrests or injuries. It said it had closed Islamic University in Hebron until March 15 because of demonstrations there last week and had closed Gaza University for 10 days after demonstrations Sathrday.

A witness from a nearby United Nations office said the protests at Gazz University, where 4,500 Palestinians are enrolled, began after Israeli troops arrested a number of students and had them line up with their hands on their heads. Other students set tires ablaze and shouted slogans. Israeli soldiers used water cannon to disperse the demonstration.

### For the Record

More than 80 percent of Ethiopia's electors voted "yes" in a assistant referendum Feb. I on a constitution transforming the country into a people's democratic republic, Lieutenant Colonel Mengista Haile Marm, the head of state, announced Saturday.

The Pakistani foreign minister, Sahibzada Yaqub Khan, arrived Sanday in Moscow for talks three days before negotiations on ending the war in Afghanistan resume in Geneva, the Tass press agency reported. (UP)

He denounced recent U.S. attempts to win the hostages' release by ahipping arms to Iran as a "fatal mistake" that only "encouraged further hostage taking and turns terrorism into a business," since the kidnapers achieved their objectives.

Mr. Khalef also discouraged American military intervention, which he said he feared

nor could afford" at this point. Mr. Khalef denied that the PLO maintained organizational links or was on good terms with Hezboliah. But "we have personal sources," he said, and are in "constant contact with good friends" inside the group. He said he was convinced that all of the

hostages were alive, "and take it from me, not one will be killed, because the life of Hezbol-lah is linked to the lives of the hostages."

# Aim of U.S. Raid Was to Kill Gadhafi, Report Says

of killing Moanmar Gadhafi, but the attempt failed because guidance systems on some bombers did not work, according to an article

published Sunday. The article, by Seymour Hersh, appeared in The New York Times Magazine.

According to the article, plan-ning for the Libyan attack involved many of the same people who were working on sending arms to Iran, including Vice Admiral John M. Poindexter, who was President Ronald Reagan's national accurity adviser, and Lieutenant Colonei Oliver L. North, who was a National Security Council staff side.

The article quoted unidentified

sources as saying that Israeli intellince had pinpointed Colonel Gadhafi's location but that laser idance systems on four of nine F-Ill warplanes failed and the

denied then that the Libyan leader's own quarters had been a target.

One administration official speaking on condition that he not be identified, said Saturday in an interview with The Associated Press that people involved in target planning said the bombs that hit Colonel Gadhafi's compound were actually aimed at the barracks of his personal guard."

The official said it might be true that lasers failed, but the bombs "were never aimed at his personal compound." The official added that the raid's planners "wouldn't have been upset" if Colonel Gad-hafi had been killed.

The Times magazine also reported that William J. Casey, who resigned this month as director of the Central Intelligence Agency, was the source of claims that Colonel Gadhafi had sent out "hit teams"

The Associated Press

NEW YORK — A small group of White House officials planned April's bombing of Libya as a way

The Washington Post reported aimed at President Reagan and last year that the Reagan administration of the officials. The article said arguing that "in the context of military action what normally would be cated those reports.

The Washington Post reported aimed at President Reagan and yers began to prepare a legal paper arguing that "in the context of military action what normally would be considered murder is not." According to the magazine arti-

cle, bombing orders given by the White House to the Pentagon did not list Colonel Gadhaff's tent or family home as targets, but one officer said the planes carried photographs indicating where the colo-nel was and where his family was. "There's no question they were looking for Gadhafi," said an air force intelligence officer quoted in

the article. "It was briefed that way. They were going to kill him."
Other sources said that Colonel Gadhaff's family had been sought out because their deaths would lead to a loss of face for him, in that he could not defend his own family. Colonel Gadhafi's wife and eight

adopted daughter was killed. Before the bombings, according to a White House official quoted in the article, State Department law-

children were hospitalized, and the Libyans said his 15-month-old ters reported from London.

The magazine said Colonel North proposed other measures, including the use of the Stealth bomber, the launching of a conven-tionally armed Tomahawk cruise missile by a submarine; and a land-

ing by a navy team that would use a

The article said that Mr. Rea-

at Colonel Gadhafi was not clear.

laser to direct bombs to Colonel Gadhafi. All the proposals were rejected, the article said. ■ Thatcher Urged to Reply Members of Britain's opposition Labor Party urged Sunday that Prime Minister Margaret Thatcher reply to Mr. Hessh's article, Ren-

They said that if the article were true, Mrs. Thatcher must have been sware that Colonel Gadhafi was a targer. U.S. F-111s based in Suffolk were used in the raids.

U.S. Will Expand **Military Exercises** In Latin America

QUARRY HEIGHTS, Pananta
The commander of U.S. forces
in Latin America, General John R. Galvin, says he plans to expand the U.S. military presence in his region

He also said the 20,000 Nicars guan rebels could win ultimately if they received sustained support, "Our problem in this is out

American impatience and lack of understanding of what an insurgency is in its essence," he said. General Galvin said the military presence in his area of responsibil ity, which includes 17 Latin American nations, would be expanded by conducting mancuvers in twice as many nations as in recent years:

"We would be doing them with practically every country in Lain America," he said Friday.

# **Antibiotics in Livestock** Said to Harm Humans

By Irvin Molotsky New York Times Service

WASHINGTON - Scientists from the federal Centers for Disease Control have come up with new evidence linking antibiotics in animal feed with illness in humans.

Antibiotics are fed to most live. stock in the United States to fend off disease and promote growth. But in recent years scientists have contended that strains of salmonella bacteria that are resistant to the drugs can flourish inside the animals as competing organisms are

The resistant salmonella can then cause severe intestinal ailments in people who eat contaminated meat. Treatment is difficult because the antibiotics ordinarily used in treatment are ineffective, the scientists say.

According to a draft of the study, to be published in The New England Journal of Medicine on March 5, the findings demonstrated "conclusively" that salmonella was spread to humans in this way.
"These studies show that food animais are a major source of antimicrobial-resistant salmonella infec-tions in humans," the report said.

The study is expected to have a significant impact in the debate over the use of antibiotics in animal feed both because it is to appear in one of the country's leading medical journals and because it will put the weight of the government's top epidemiologists behind the conten-tion that giving antibiotics to animals can harm humans.

The report, by a research team Dr. John S. Spika, has been awaited in Congress, where bills barring the routine feeding of bills barring the routine feeding of arms of origin, identifying a manufibiotics to animals are to be reintroduced. It is also of great inter-

est to the Food and Drug Adminis-tration, which once tried to ban such antibiotics use, and to the food and chemical industries, for which the use of antibiotics has

enormous economic significance. Antibiotics permit animals to make more efficient use of their feed, thus improving growth, and also protect livestock against the rapid spread of disease in the close quarters prevalent in modern ani-

Among the antibiotics most frequently used in animal feed are penicillin and tetracycline, which are also prescribed frequently for human illnesses. But these medicines are ineffective against diseases caused by resistant strains of bacteria that develop in animals fed with the drugs.

The federal study said in its conchusion that cooking, especially the light cooking of beef, does not kill all the salmonella organisms.

"The problem is complex and no one solution is apparent," the study said. "Efforts must be taken to minimize the contamination of meat and other food items by resistant szimonella."

One congressional aide said that the significance of the report was in its careful tracing of salmonella from farms to sick people, a process that ruled out the possibility that the food was contaminated in

By Weinberger processing and transporting.

The report, for example, cites an outbreak of salmonella in May 1985 in Los Angeles, saying, "We epidemiologically and microbiologically incriminated hamburgers traced the strain back to the dairy farms of origin, identifying a major, persisting reservoir for drug.

Turkish interests over its own in

### Japanese Are Changing Face of the Middle West

The Middle West is getting not only Japanese-owned factories, but Japanese executives to go with them. And with the executives come their families. The New York Times reports that thousands of Japanese, most of them on two-year tours, are settling in hamlets to avoid big-city crime, scattering to avoid appearing clannish and marching in local parades or contributing to charity drives to win

over the curious and the akeptical About 15,000 Japanese nationals are temporarily in the Middle West, nearly twice the number of a decade ago, according to the Japanese Consulate in Chicago. Many more are expected as construction begins on a Fuji-Isuzu antomobile plant in Lafayette, Indiana, and as Japanese makers of automobile components set up offices near existing auto plants.

Daily nonstop flights between Detroit and Tokyo will begin in May. A monthly Japanese newspaper, Japan Detroit Press, started there in April 1986.

The Japanese are aware that Vincent Chin, a Chinese American, was beaten to death in Detroit five years ago by two laid-off auto workers who said they thought that he was Japanese. The newcomers seldom venture into the city, preferring the relative safety of small towns and suburbs.

"We're getting more and more Japanese products," said Toni Golden, a clerk at a supermarket near the new Mazda automobile plant southwest of Detroit. "We got the chopsticks, we got the rice, we got the soy sauce. I think it's very exciting."

### Notes About People

Verson E. Walters, the chief U.S. delegate at the United Nations, has his own system for establishing contact with representatives of hostile countries on neutral territory, like UN cocktail parties: "I nod to them twice. When they don't nod back, I give up."

Licutenant General James A. Abrahamson, director of the Strategic Defense Initiative Organization, is said to be vexed with one of its contractors. The Washington Post says Martin Marietta gave the name R2P2 to a new Denver installation for space tracking. The name resembles the R2D2 robot character in the film "Star Wars," which SDI does not like being compared to. A Martin Marietta spokesman, citing the fondness of engineers for abbreviation, said the formal name is Rapid Retargeting Precision Pointing," which yields R-squared, P-squared,

The playwright Arthur Miller told The New York Times that "to be an actor or an actress is to be in a very, vulnerable position" and that his second wife, Marilyn Monroe, "was just the most pathetic and the most known" of acting's victims. He said that when she died at 36 in 1962 of an overdose of sleeping pills, well after they were divorced, "I can't say I was absolutely surprised, but I was horrified. I knew she had been playing Russian roulette all her life. There was no way I could help her. It's a failing in me, no doubt, but it's also a failing in every other human being she ever came in contact with. That's what tragedy is and that's why it is so unacceptable."

### **Short Takes**

The United Way, combining several charity drives, went in for shock effect last fall in Burlington, Vermont. A series of posters depicted such scenes as a battered child, a boy emerging from a house window with goods he had stolen and a pale, elderly man sitting alone in a kitchen, eating dog food. "The bad news," said David Demers, the drive's executive director, "is that we did not make our goal. The good news is that we raised 5.7 percent more than the year before." The goal was \$3 million; the drive raised \$2,885,000.

Horseback patrol is a much-prized assignment for 145 of New York City's 25,000 police officers. They take a fiveto eight-week course in horsemanship, crime prevention on horseback, crowd control and public relations. "We learn to jump, too," said Officer Thomas Dinkelacker. "A garbage can could roll into the street, and you'd have to go over it." Why do the mounted police always have plenty of volunteers? For one thing, members of the unit say, they like horses. For another, as Officer Kenneth Haas said, "People like you for a change."

The Washington bureau of The New York Times reports that a disheveled man with his hand out on a street corner of the capital stared at the dime a passer-by had given him, then turned to an equally disheveled companion to re-mark, "Man, we got to find some new way to panhandle."

-ARTHUR HIGBEE

# **Nunn Bars Presidential** Bid, for Now

ATLANTA — Senator Sam Nunn of Georgia has decided to remove himself from the race for the Democratic presidential nomination, but he refused to rule out

the possibility of changing his mind

"I'm going to keep my options completely open," said Mr. Nunn, a Democrat who is chairman of the Senate Armed Services Committee.

in a speech Friday.

He has been under heavy pressure from centrist and conservative Democrats to seek the nomination. He said: "I know that if I tried to take on a presidential race in the next six months and also to perform my duties in the Senate, I would wind up doing neither job

# **Dismount That Summit**

ing, Ronald Reagan and Mikhail Gorbachev have to retreat to where they were before that fateful meeting. Reykjavik now blocks the way to useful arms limitations with grand illusions about space-based defenses and a world without nuclear weapons.

In both countries now, experts talk about how to get back on the more modest, sensible track available before Reykjavík. The first step must come from the two leaders. That should not be hard, for their own, differing interests lead precisely in that direction.

Before Reykjavik, the superpowers were verging on an agreement to sharply reduce their offensive forces in return for reaffirming certain limits on defenses. At Reykjavík, perhaps carried away by the moment, Mr. Reagan proposed eliminating all ballistic missiles. Mr. Gorbachev, perhaps seeing a propaganda opening, countered with the idea of destroying all nuclear weapons. Surprisingly and regrettably, Mr. Reagan assented in some fashion.

The Pentagon's arms control expert, Richard Perle, rightly calls this "the foolishness of a nuclear-free world." In such a world, he said in a recent speech in Europe, it would not just be very difficult to verify total climination, but impossible. When both sides have thousands of nuclear weapons, cheating means practically nothing. Without them, even a little cheating would be decisive.

Moscow now appears to realize that the idea will not fly. Soviet officials privately propose to destroy all nuclear weapons except 100 intermediate-range missiles plus tactical or battlefield nuclear weapons, which eventually would be eliminated as part of negotiations on conventional-force reduction. But even these modifications do not much answer the objections. Successful cheating to retain some long-range nuclear weapons still would prove critical. That Moscow continues to press these schemes raises questions about its seriousness.

Mr. Reagan needs to backtrack on his idea eliminating ballistic missiles. That

siles. The United States has only a few hondred operational strategic bombers, and they would be highly vulnerable to a surprise attack by "illegal" ballistic missiles. Sealaunched cruise missiles would have to be fired from near Soviet shores, where the submatines would be in danger of detection.

An equal obstacle is Mr. Reagan's vision

of space-based defenses. He seems so possessed by the remote possibility of rendering nuclear weapons "impotent and obsolete" that he ignores Moscow's offer to halve its nuclear forces now. At Reykjavik, he agreed to delay SDI deployments for 10 years. That needs to be reaffirmed and, contrary to Mr. Reagan's new instructions and Soviet attitudes, the sides have to get down to talks about what kind of research should be permitted in the interim.

As the former U.S. defense secretary, James Schlesinger, wrote in Foreign Affairs magazine, Mr. Gorbachev "blundered in failing to seize upon the president's acceptance" of strategic disarmament, thus making the summit only "a near disaster." But at this point, both men have good reason to put that meeting behind them.

Mr. Reagan knows he cannot monitor a nuclear-free world or trust the Soviet Union to observe it. He knows the allies will not put up the money to establish a balance of non-nuclear forces. He knows Congress and the allies strongly oppose his grandiose ideas. And in this season of crisis, he cannot fail to realize how much good an arms control breakthrough would do his politi-

cal, and historical, standing.

Mr. Gorbachev has scored his propaganda
points. He also seems to realize that Mr. Réagan, hero of the right, is uniquely qualified to deliver a U.S. arms control consensus. If the Soviet leader wants an arms pact that can free resources for the Russian economy, now is the time to offer realistic proposals It is time to get back to the future, back before illusions, back before Reykjavik.

-THE NEW YORK TIMES.

# Chaos in the White House

What has been progressively demonstrated in the unfolding story of the Reagan administration's dealings with Iran and the rest of the backstairs drama is also being demonstrated in the story of its conduct since the arms deal was first revealed: an anarchic, fragmented, every-opportunist-forhimself way of doing business. As incredible as much of the Iran and funds-for-the-contras (and who-knows-who-all-eise) events are, even more incredible, and destructive, has been the reaction to it in high places. Not just of the evidence of cover-up efforts that Congressional and Tower Commission investigators have apparently unearthed, but of the intensely self-serving nature of the responses of so many of those at the top.

From day one, Nov. 4, it has been like that. President Ronald Reagan was badly and defensively briefed for his first two pubhic accountings of the affair, one a television address and the other a press conference, by aides who knew they were giving him false information, so that he stood right up there and made statements that were untrue. Did Mr. Reagan know this too? That is

one large question that remains. Although there has been a widespread, condescending tendency to assume that he was merely duped by wily advisers or that he never quite understood what he was doing, the possibility remains that he knew very well, both at those moments when he professed to be explaining the true story and when he was engaged in the policy that got his administra-tion into so much trouble. This is something the Tower Commission presumably will shed some light on. What hardly needs more light, at least so far as understanding the essential truth is concerned, is the behavior of his top White House assistants and partners in the debacle: It has been disgusting.
Two, Colonel Oliver North and Admiral

John Poindexter, have retreated into selfprotective silence after evidently trying to fiddle with the truth of the revelations. It is

versions offered by the former national security adviser, Robert McFarlane, was the right one as to the time and forthrightness of the president's approval of the shipment of arms to Iran. Meanwhile, the level of sniping and internecine struggle over who gets blamed has reached a decline-of-Rome level.

Donald Regan, arguably the worst White House chief of staff ever, has of course been at the center of much of this. From the start he has been casual, even cavalier about the interests of the president he is alleged to represent, but absolutely dogged in trying to justify, defend and glorify himself.

Would that Donald Regan had shown half as much energy and commitment in the defense of the president as he has shown in the protection of his own turf. By that we do not mean that he should have been trying to cook the evidence or rearrange it so as to distort Mr. Reagan's role in all of this or to dump it on scapegoats. True defense of the president, of his best interests, would have nvolved making sure, in a personally disinterested way, that the facts came out quickly, fully and in an orderly fashion, that the president was not led into the propagation of falsehoods — in short, that the administration responded to this seriously and in a way

that might inspire or restore confidence. How different it has been. Still, we do not blame Mr. Regan, as appalling and self-absorbed as his actions have been, for the plight of Mr. Reagan. We blame Mr. Reagan for continuing to leave things in the hands of Donald Regan. The president is responsible for the chief of staff, and not the other way around. Maybe this will soon become plain to the president. Maybe, as the rumors go, Donald Regan is at last planning to leave. But in the period from Nov. 4 till now, this administration, by its reaction, has greatly compounded the trouble it is in, and the loss

of confidence in it at home and abroad. - THE WASHINGTON POST.

# Haughey's Mixed Victory

Prime Minister Garret FitzGerald for bad times and a jobless rate now second worst in the European Community. His defeat was not a repudiation of his government's land-mark agreement with Britain on Northern Ireland. That is borne out by former Prime Minister Charles Haughey's careful handling of the issue in his political comeback. Not incidentally, his party won fewer votes than

in 1982, and is three seats short of a majority. Mr. Hanghey has always played to the green, or nationalist, side of the Irish electorate. But times change, and old issues dating to the Easter Rebellion no longer stir the blood. Sensing the shift, Mr. Haughey has been robustly equivocal about his rival's accord with Prime Minister Margaret Thatcher. The agreement gives the Irish Republic a consultative role in Ulster, while accepting Britain as a binding treaty. To dishonor British rule as long as a majority there wishes. Some days, Mr. Haughey worried that the Britain but the U.S. Congress, which overdeal was unconstitutional; on others he whelmingly endorsed the accord. Let Mr. guessed it did some good for Ulster's op- Haughey swiftly set these doubts to rest. pressed Catholics. What he really wanted

It was the economy, not the "national question," that mattered most in Ireland's election last week. Voters clearly blamed

It did not work at the polls. The biggest gainer was a new party, the Progressive Democrats, formed just 14 months ago by five defectors from Mr. Haughey's Fianna Fail, all re-elected along with nine new members. The new party is right-of-center, yuppie in spirit, and explicitly rejects the old irredentist issues. The two other parties - Mr. FitzGerald's Fine Gael and the Labor Party — also play down ancient divisions. Yet, incredibly, there are reports that Mr. Haughey might denounce the agreement with Britain to form a majority with a handful of extremists in Parliament. It is hard to believe that any politician who cared for his party and country would do anything so sordid. During his cam-paign, after all, Mr. Haughey said that if elected he would regard the agreement with that promise would be to spite not only

## **OPINION**

# American 'Competitiveness' Is Out of Style

WASHINGTON — Members of the U.S. Congress are not paid to wonder why American kitchen appliances are square and faced in imitation wood with push-button controls, while those from West Germany are curved and made of white plastic with dials. But since nobody else appears to worry about what goes on in the kitchen, the denizens of Capitol Hill might as well have a go at it. They will learn at least as much from that inquiry as they will from all the nonsense they are now hearing about American "competitiveness." And what nonsense much of it is. Within the last

two months, competitiveness has been used to justify more funding for the Strategic Defense Initiative, natural-gas deregulation, the protection of U.S. industry from international competition, a national crusade for better schools and much, much more. Liberal Democrats and conservative Republicans alike preach its virtues; free-traders and protectionists wrap themselves in its aura.

Two broad approaches to competitiveness are being espoused. On the one side are those, including many in the administration, who argue that America's problems are a function of macroeco-nomics, particularly the relative prices of different currencies. Change the macroeconomic picture, and all will be well. On the other side are those, including many Democrats, who think that more is required. U.S. productivity — the amount of wid-gets that can be produced for a given amount of labor and capital — is, they say, singgish by comparison with that of Japan, other Pacific rim countries and Western Europe. Improve productivity and everything will come up roses. As is usually the case in economics, neither is

wholly wrong nor wholly right.

Take the Democratic argument first. This, simply put, has little to do with competitiveness and much to do with restoring jobs, especially jobs in manufac-turing industries, which, it is argued, have been lost to imports from abroad. Jobs have indeed been lost. Employment in manufacturing has shrunk from about 31 percent of the work force in 1960 to a little less than 20 percent at present. It would be foolish to deny that some jobs have been lost to foreign competition. But we know for certain that manufacturing's contribution to gross domestic product has remained remarkably constant, at about 22 to 23 percent, for 25 years. The reason it has done so is because manufacturing productivity has improved. Through new technology and better management, fewer workers now can make more widgets. According to this research to the resident ing to this year's economic report to the president, manufacturing productivity grew by 3.8 percent between 1981 and 1986, compared with an average rate of just 2.6 percent since 1946.

Does this mean that America does not have a productivity problem? Of course not. All it means is that the economy has created lots of new jobs in the service sector, where productivity growth is just about flat, for reasons which economists, if they are honest, had better admit they do not understand. What we do know is that, despite the way that official figures underestimate international **By Michael Elliott** 

trade in services, the most important part of America's exports will continue to be in manufactured goods - those goods, in other words, where productivity gains are already real and sustained.

So if America's problems in the world economy are not to be solved by concentrating on productivity, what about the macroeconomic factors? The administration likes to argue (or at least it does now -it did not use to) that the strength of the dollar between 1981 and 1985 made American goods more expensive abroad and foreign goods cheaper here. Here, too, there is an obvious truth mixed up with some oddities. Consider first what would be the effects of economic expansion — as urged by the administration in hopes of bolstering U.S. economic performance — in other countries. In October, Wharton Econometrics, a respectable consulting firm, estimated that a 1 percent drop in interest rates in West Germany would reduce the U.S. trade deficit by \$1 billion. The same cut in Japan would shave \$3 billion off the deficit. The deficit, remember, is nearly \$170 billion. Thanks very much.

Next, note that if the trade balance was simply a

function of exchange rates, exports of U.S. goods and imports of foreign ones could be expected to track the changing value of the dollar quite closely. After a delay, known to economists as the J-curve effect, a cheaper dollar would lead to higher ex-ports, an expensive dollar to higher imports. Yet for many commodities — cars, consumer durables, and expensive capital goods among them - the ratio of imports to domestically produced goods has risen since the mid-1960s, no matter what has

happened to the status of the dollar.
Economists can find any number of reasons for

that. The dollar may not have dropped against the currencies of some major trading partners, as it has not dropped, in the last year, against the South Korean won or the Hong Kong dollar. Or foreign companies may hike their prices when the dollar is strong. That gives them a cushion which they can use to take low profit margins, but maintain their market share, when the dollar is weak. The trouble with these economic explanations is that they leave out of account the commonsense evidence. When the eyes glaze over at economic theories, the sensible remedy is to watch network television. Anybody who thinks that the Japanese sell cars in the United States because they are cheap has been away from prime time for years. They sell their cars because they look good and last well.

At this point in the argument, another buzz-word, every bit as unhelpful as competitiveness, gets introduced. This is "quality." Everyone is in layor of quality, and thinks that American goods should have more of it. But unless the concept is broken down into more easily understood components, we are at a loss for any policy prescriptions.

My guess is that the first thing that any foreigner notices when he wants to buy an American product is its design. There can be no country in the world where so many goods look so old-fashioned and dowdy; no country where the craft of industrial design has such a low status. Not Italy, Germany, France, Japan or even England. The last significant American export earner I can think of that came out of a design school was the rock band, Talking

of a design school was the rock band, I liking Heads. The last piece of American consumer design that any foreigner would be proud to own was the yellow power-necktie. Fine in its way, but a slim reed on which to hang an industrial future.

All this can be easily dismissed as the subjective views of one foreigner. But I wonder. "European" has become an adjective that does not just mean "from Europe;" it means chic and stylish. Absurdly, one of Detroit's new offerings is called the Europeant Resides all the evidence is that American sport. Besides, all the evidence is that American consumers are more educated, better traveled, more aware of foreign tastes and more demanding in the kind of goods they buy than ever before. That is not just a yuppie trait. American consumers — all American consumers — like foreign goods. That

must be, in large part, because they look nice. So what to do? Improve productivity in the service sector, of course. Coordinate exchange rates, by all means. But a true competitiveness policy would encompass much more. It would support art and design students, send its managers to Hong Kong, Milan, London and Frankfurt, and do everything it could to encourage in its youngsters (you can forget anyone over 25) a sense of style. None of this has much to do with Washington's current obsession. But it goes some way to explaining why, before you read this article, you made your morning coffee on a German machine.

The writer is a Washington correspondent for The Economist. He contributed this comment to The Washington Post.

# **Quotas Are a Boon to Automakers, Not Auto Buyers**

WASHINGTON — Japan's "tern-W porary" quotas on auto exports to the United States celebrate their sixth birthday soon: appropriately, on April Fools' Day. Though the restrictions were originally intended to last three years at most, Detroit auto executives and Japanese bureaucrais seem.

Robert Crandall, a Brookings Institution try just needed a nume oregunally space" so it could catch up with the price of imported Japanese autos by Japanese. The Japanese government originally amounced that the restrictions would last only three years. They

for American car buyers. The Japanese government let Japanese automakers ship just 2.3 million cars to the United States last year under the "Voluntary Restraint Agreement," though the U.S. govern-ment no longer requests such limitations. Last month, Japan azmounced that it will keep the quota at the same level for a seventh year.

So while the Reagan administration's trustbusters, quite properly, would come down hard on Ford, Chrysler and General Motors if they schemed to limit sales and divvy up the market to drive up prices, that is exactly what the Japanese govern-ment is doing to satisfy the protecdustry's political supporters.

That is good news for Lee Iacocca & ioned American ingenuity of the pec-Co., bad news for car buyers. In 1984 ple who dream up these new reasons and 1985, U.S. consumers paid an ion reducing competition. In 1981, That is good news for Lee Jacocca &

W much remains unknown about the Iran-contra dealings, information frequently comes out in the form of

extra \$26.6 billion as a result of the Douglas Fraser, then president of the voluntary restraints, according to United Auto Workers, said the indus-

In 1984 — the year auto industry executives gave themselves million dollar bonuses --- some in the industry called for continued protection. The new excuse was "exchange rates." When a dollar can buy more Japanese yen, American consumers can buy Japanese autos with fewer dollars. In February 1985, for example, the dollar traded for 260 year. The UAW president, Owen Bieber, called for continuing the voluntary restraints "until the yen and the dollar return to a fair balance." David McCammon, a Ford vice president, told a Congressional

committee the accord should continue until the dollar traded for 200 yen. The dollar has fallen in value to around 150 year, down 61 percent in two years. And prices of Japanese cars have risen accordingly: an average of \$1,300 last year. Yet Ford and Chrysler still insist on quotas. (Gen-

Irangate: Beware Harming the Innocents

Development and the State Department. The second proposal was to authorize funding for the National evaluation of all grants. It reports fully to Congress on its activities and, as required by statute, keeps the State Department informed as well. The commitment to openness has always been fundamental to the concept and actual operation of the Endowment. In all cases, the Endowment has been responsive to the needs and ini-

tiatives of its partners abroad, in the belief that internally generated change is preferable to change artificially imposed from outside.

The Endowment's work covers a

wide range of countries. In the Philip-pines. Haiti, Taiwan, Guatemala, South Korea, Chile and Paraguay, its programs have supported or are helping to stimulate a process of democratic transition. In developing democracies such as Argentina, Peru and Colombia, as well as in the Caribbean and Central America, it provides aid to groups seeking to con-solidate democratic institutions and procedures and to strengthen the commitment to democratic values.

The Endowment is also engaged in the difficult job of encouraging phuralist trends in the closed societies of the Communist world. Even in societies wracked by conflict, such as South Africa, Afghanistan, Northern Ireland and Nicaragua, it supports those who are working peacefully to sustain dem-ocratic possibilities and values.

The present controversy only eightens the importance of such open support for friends abroad. Totally unrelated activities alleged to have been carried out under the rubric of an otherwise defunct "Project Democracy" must not be allowed to discredit the efforts of the National Endowment for Democracy.

Volkswagen, by financing such a film, seems more interested in propa-gating distorted politics than in selling Walter F. Mondale, the former Democratic vice-president, has served on the board of directors of the National Enruns a risk that quite a lot of people, including myself, will find it hard to

eral Motors, incidentally, says it can live without them; the GM president, Roger Smith, says his company will "concentrate on beating the competi-

tion in the marketplace.") Unfortunately for consumers, U.S. automakers responded to the increase in Japanese car prices by raising their prices. Though U.S. manufacturers tion by slashing interest rates last year, wholesale sticker prices on 1987 models are up 6.6 percent over 1986; an.

average of \$700 per car. That explains why Chrysler, Ford, and the UAW like quotas.

The Japanese government's mo-tives are more of a mystery. But Japan's automakers have raked in several billion dollars a year extra because of the voluntary restraint accord. Quotas give them an incentive to export option-loaded models with the highest profit margins. Arthur Denzau, an economist at Washington University's Center for the Study of American Business, points out that announcement of the agreement in 1981 drove up Japanese auto compa-nies' stock prices by 6 to 11 percent in anticipation of future profits.

Nevertheless, the Japanese auto re-strictions carry a "Made in the USA" label. The "voluntary" agreement was never really voluntary, and Con-

gress has kept the pressure on.

Despite the quotas, protectionists will likely push again this year for new restrictions, requiring cars sold in the United States to contain a percentage of U.S.-made parts. But even that would not be the end of it. If the Japanese start manufacturing more of their own components in the United States, they will be criticized for not buying from U.S. companies. And on and on until Datsuns have Lincoln engines and Cadillac transmissions.
The Congressional Budget Office has estimated that enactment of a 50-

percent "domestic content" requirement would save 38,000 jobs in the domestic auto industry — but de-stroy 104,000 in other sectors of the economy. Such are the sacrifices protectionists would have us make in order to curb competition.

So, the accord counts its years. Detroit counts itself lucky. And con-sumers and workers outside the auto

industry count their losses. The writers, members of the staff of Citizens for a Sound Economy, a U.S.

public policy organization, contributed this comment to The New York Times.

# This 'Peace' Lies Uneasy Over Israel

By Jim Hoagland

JERUSALEM — "What I fear is that people are becoming sick and tired of the Arab-Israeli conflict," Yehoshafat Harkabi said, as if he were reading my mind. "I fear we are witnessing the marginalization of the Middle East, where everyone concludes that the problems of this area are beyond repair." Mr. Harkabi, one of those remark-

able scholar-soldiers that Israel produces periodically, acknowledges that such fretting is a lonely exercise here. Israeli eyes understandably glaze over when the words "peace process" are mentioned these days. Israel has never had more reason to feel comfortable. The external pressures that a decade ago were working against the Jewish state have all receded. The Palestine Liberation Organization, oil, the U.S. State Department's Arabists and the rest have fallen on hard times, to the regret of

virtually no one in Israel. A sign on a Jerusalem street marking the departure point for a "Daily Bus Trip to Cairo" is a reminder of how quickly the extraordinary be-comes mundane. In a few weeks, Israel's peace treaty with Egypt enters its eighth year of diplomatic relations, open borders and the absence of mili-tary threat on Israel's southern from

Anniversaries are important occasions for a Jewish nation living in the midst of the Arab sea, Each one provides a new measure of permanence and a moment to take stock. Thus, Israelis are already looking beyond the Egyptian treaty anniversary to June 5.
That day will mark the 20th year since Israel destroyed three Arab ar-

mies that pretended they were finally set to annihilate the "Zionist entity." And yet, over this content inertia hangs the realization that Israel has received an unfinished peace in return for giving back all the Sinal, and that it still lacks full security and acceptance two decades after the 1967 victory.

Israel will spend \$4.4 billion, or about 15 percent of this year's gross national product, to maintain the world's third or fourth mightiest army. Defense Minister Yitzhak Rabin complains that he has had for the

last two years to make painful cuts to keep the spending at this level.

And, to build up an independent arms industry for security reasons, Israel has become a major arms exporter. to clients as diverse as South Africa and Iran. Many Israelis are increasing-

ly concerned about such links. On the West Bank, in this 20th year after victory, unrest has become chronic instead of episodic and is taking on an air, however tentative, of insurrection. Palestinians are reacting to becoming in Mr. Harkabi's chilling

others deciding their destiny."

Just as Israelis have become disillusioned about their ability to gain more than a respite through either diplomacy or war, the Palestinians have seen fail all the outside forces they counted on to deliver them: the Arab states, the PLO, the Soviet Union, U.S. diplomacy. They and their Jewish neighbors are now center

stage in an unpredictable drama. Mr. Harkabi, a leading Israeli hawk when he headed military intelligence in the 1960s, now describes himself as a "Machiavellian dove" trying to get the best deal possible for his country while its foes are at their weakest.

He argues for a "Zionism of quali-ty instead of Zionism of acreage" based on annexation of the West Bank. He calls for a bold and long-term Israeli strategy based on withdrawal and compromise, which he says has to be supported unambigu-

says has to be supported unamingnously by the United States.

The halfhearted support the U.S. State Department is belatedly giving to an international peace conference, as a way to bring Jordan's King Hussein into negotiations on the West Bank, is a far cry from the kind of bold stroke Mr. Harkahi feels is needed.

U.S. parametrings about an interna-

U.S. maranurings about an international conference are part effort to give the appearance of movement and part atonement to Hussein and other Arabs for Irangate. As William B. Quandt's excellent Brookings In-stitution book, "Camp David: Peace-making and Politics," demonstrates, it is next to impossible to overcome the complexities and difficulties of arranging such a conference even when there is a fully engaged and determined president leading the effort, as were the account. fort, as was the case in 1977.

We do not have that today. It is hard to grasp, from Jerusalem at least, that the United States is doing little more than substituting lip service for policy. That would prove Mr. Harkabi's suspicion that Washington has slipped the Middle East into the "too hard" folder, on its way to becoming Terra Nullius.

The Washington Post.

# South Korea Parties On Collision Course

### Political Crisis Appears Inevitable **Amid Deadlock Over Constitution**

By Clyde Haberman

SEOUL - Many South Koreans are losing hope that their country can avert a political crisis in its search for a new way to select its

Politicians, business executives and intellectuals express growing mism about a prolonged deadlock in which the ruling and opposition parties have offered rival plans for constitutional change that each side says would create a more democratic government.

"There is no way out of this dilemma," a university political science professor said. "On both sides there is a basic lack of trust."

A measure of urgency was added

### **NEWS ANALYSIS**

Thursday when the governing Democratic Justice Party warned that, unless there were a compromise within the next two months, it would take steps to push its own proposal through the National Assembly. Such an action would almost certainly lead to protests. It might even persuade the opposition to take to the streets, setting the stage for possible violent confron-

tations with combat police squads. As it is, South Korea faces an uncertain future with college students returning in a few days to politically charged campuses after

a long recess. Spring demonstrations, always a threat in a country with little official tolerance for any form of perceived instability, are expected to be more severe than normal. It will be the first opportunity for mass rallies to protest the recent death of a student during police torture.

Some analysts caution that there is still ample time for a negotiated settlement and that brinkmanship is part of the process.

Nevertheless, concern about South Korea's political impasse and its potential for crisis has prompted the United States to adopt a more aggressive approach in prodding the rival camps toward a consensus. Statements by American officials rebuking both sides for a lack of progress have been received coolly by the authoritarian government of President Chun

Last May, the U.S. secretary of state, George P. Shultz, visited Seoul and said that the Chun government was "moving impressively in the right direction

A public retreat from that warm

when Gaston J. Sigur Jr., a U.S. assistant secretary of state for East Asian and Pacific affairs, sounded more critical notes. By indirection, Mr. Sigur questioned the present government's legitimacy, and, more bluntly, he called on the military to get out of politics.

Despite Washington's concern. nowever, political analysts doubt that the Reagan administration can do much to bring the opposing sides together.

The issue at stake is crucial. How it is resolved will determine who governs after Mr. Chun steps down, as he has promised to do. next year. No South Korean leader has ever given up power voluntari-ly, and many people here still won-der if he intends to retain behindhe-scenes control.

His ruling party proposes abandoning the present system, based on indirect election of a president by a large electoral college, and lacing it with a cabinet system led by a prime minister. The opposition New Korea Democratic Pargy, wants a president who is elected in a direct popular who is a direct popular vote.

Each camp offers reasons why its idea is the more democratic one. At heart, though, neither side believes it can win under the other's plan.

The main opposition leaders, Kim Young Sam and Kim Dae Jung, last week urged a referendum to let voters choose which of the proposed systems they preferred, but the Democratic Justice Party

But Hyun Hong Choo, a leading member of the ruling party in the National Assembly, said Friday that there would be room for flexibility if the opposition ended its boycott of negotiations on the constitutional issue. His side might even be prepared to discuss modifi-cations in its proposal, Mr. Hyun

While that offered a glimmer of hope, other politicians and indedent analysts remained strongdoubtful. Some also warned of trouble should the ruling party carry out its threat to adopt constitutional change on its own, with the required help of a few dozen compliant lawmakers from the opposition. That would create a perception that the government had "rammed through" its plan, they said, and would discredit the elec-

> Mr. Kennedy requested the audit in June after receiving reports of Liberian government corruption.

J. Emmanuel Bowier, spokesman for the Liberian Embassy in Washington, reacted sharply to Mr. Kennedy's remarks and the report, which he said he had not seen.

"I doubt whether it is a true tary, Alfred S. Gonsalves, who report or that it can be proved,"
habitant reporting the earlier troop Mr. Bowier said. "We in Liberia are tired of these threats. The U.S. cannot dictate what our priorities should be."

WASHINGTON - The De-

Pentagon officials, outlining

project details for the first time, also disclosed that the U.S. military has used the big base at Kamina in conducting unpublicized joint ex-ercises with Zairian troops for several years. The exercises involved fewer

than 200 U.S. special forces troops and elements of Zaire's Frenchtrained airborne division, officials "We have had a couple of small-

would expect to continue," an official said. The Central Intelligence Agency has also used the base to ship military aid, including sophisticated Stinger anti-aircraft missiles, to rebels fighting the Marxist govern-ment in Angola.

scale exercises with Zaire, and we

Administration officials said that interagency discussions have been under way for some time and that a decision on whether to begin negotiating for an access accord must be made within three months. That would permit use of \$2 million tentatively set aside by the Pentagon for the project this fiscal

The State Department is said to be considerably less supportive of the project because of concern that the administration will make a commitment to President Mobutu Sese Seko of Zaire that it cannot fulfill because of budgetary con-

The State Department also has expressed concern that a formal occess agreement would give too high a profile to close military and security ties between the United States and Zaire, according to administration sources.

Mr. Mobutu is reported to be seeking a large U.S. financial com-mitment to the Kamina base. His attitude about a formal access accord is not known.

- The base was built by Belgium in the mid-1950s.

### **U.S.**, Britain Veto Sanctions On South Africa in UN Vote

By Eric Pace

New York Times Service UNITED NATIONS, New York — The United States and Britain have vetoed a Security Council resolution that would have imposed mandatory sanctions on South Africa like those approved last year by the Congress over President Ronald Reagan's veto.

Ten countries voted in favor of the resolution Friday. West Germany, which is not a permanent member and lacks veto power on the council, also voted against the measure. France, a permanent member, abstained, as did Japan.

Diplomats here noted that the vote put the U.S. government in the position of vetoing a measure that strongly resembles one approved by its own national legislature.

The resolution was proposed by

Argentina, Congo, Ghana, the United Arab Emirates and Zam-Voting for the resolution, in addition to the five sponsors, were Bulgaria, China, Italy, the Soviet Union and Venezuela.

Analysts said some advocates of the Security Council resolution wanted it to highlight the divergence of views on the sanctions issue between the Congress and the Reagan administration.

Like the sanctions approved by Congress, the Security Council measure would have banned the import of South African gold coins. military equipment and some food and mineral items; suspended landing rights for South African aircraft; and barred most investment in South Africa.

It also would have banned the sale of computers and nuclear technology to South Africa.

During the debate here, the United States said the sanctions "would fail to bring an end to apartheid in a peaceful manner."

Herbert S. Okun, the acting U.S. representative, added that mandatory sanctions would "make it difficult if not impossible to achieve internal reconciliation and regional

# U.S. Officials Puzzled By Cache of Unclaimed Weapons in Honduras

By Stephen Engelberg and James LeMoyne New York Times Service

WASHINGTON — A large the flow of arms to the contras. cache of Soviet-made arms sitting unclaimed and unsalable in a warehouse in Honduras has become one of the latest mysteries emerging from the federal and congressional investigations of the private network to arm the Nicaraguan rebels.

Congressional investigators and administration officials have been looking into the possibility that the purchase and delivery of the wearons were arranged by Lieutenant Colonel Oliver L. North, the dismissed National Security Council aide who was directing private efforts to aid the rebels, also known as contras.

These sources said that there was no direct evidence tying Colonel North to the shipments. Several sources said the cache could be a result of an arms deal gone sour that was put together without U.S.

to Honduran military and government officials said the initial shipments were delivered by a Danish freighter known to have been subsequently used by Colonel North's associates to ferry arms to the con-

- Administration officials said the that Congress provided to the contras be spent on the weapons because it was not known who paid

A lawyer for the Miami arms dealer who brokered the weapons, which the dealer offered to the contras for \$20 million, said Saturday that a private "foreign interest" had initially paid for the arms, which include Kalashnikov assault

The lawyer, Theodore Klein, said the initial purchaser had planned to sell them to the Honduran military, which in turn would sell them to the contras. Mr. Klein insisted that Colonel North had no part in shipping the weapons or in any other aspect of the deal.

But the officials and investigators said they were intrigued by where the money came from to underwrite the multimillion-dollar cost of buying the weapons and shipping them to Central America. The weapons in the warehouse, against Honduras if he were not they said, could help explain how some of the tens of millions of dollars contributed by foreign goveroments on behalf of the contras-

was not sure who had paid for the weapons, which are now being Honduran military in Tegucigalpa.

The source said the arms were to be sold to the contras by a small cers, who would share the profits the contras.

# U.S. Visa Lottery: It's Luck of Guess Who

WASHINGTON — Irish applicants won the biggest block of the 10,000 U.S. immigration openings that will be made available this year and next to people who normally would not qualify, according to figures announced over the weekend. There were 1.3 million applicants, and the Irish won 3,112 openings.

No applicants from Albania, Guadeloupe, Liechtenstein, Luxembourg, Monaco, Ne Caledonia or San Marino were successful.

The openings were offered under a law designed to help people in 36 countries and territories whose emigration to the United States has decreased since 1965.

For years, all 270,000 immigration openings each year have been filled by people with special attributes such as desirable skills or close relatives living in the United States.

Under the one-time offer to 5,000 people this year and 5,000 in 1988, the only main requirements were a desire to come to the United States and lots of luck.

To give applicants an equal chance, the State Department advertised in the 36 countime could be out of luck. In addition, some of the applicants will be inclinible for various reasons, such as criminal records, and others may decide they do not want to become U.S. residents after all.

Ruth van Henven, a State Department spokeswoman, said the department had set aside a number of applications beyond the first 10,000 in case there are dropouts. Here is the State Department's list of the

number of winners from each country: Albania 0, Algeria 15, Argentina 170, Austria 82, Belgium 63, Bermuda 6, Britain 1,181, Canada 2,078, Czechoslovakia 27, Denmark 54, Estonia 7, Finland 39, France 201, East Germany 20, West Germany 311, Gibraltar Guadeloupe 0, Hungary 32, Iceland 4, idonesia 810, Ireland 3,112 and Italy 315. Also Japan 518, Latvia 1, Liechtenstein 0,

Lithuania 3, Luxembourg 0, Monaco 0, New Caledonia 0, Netherlands 108, Norway 9, Poland 592, San Marino 0, Sweden 129, Switzerland 96 and Tunisia 16.

ments had been destroyed, government officials said the destruction was routine, and that National Security Council regulations required that many classified documents be 'shredded" at the end of each day. But Mr. Walsh's decision to

grant immunity to Ms. Hall would seem to indicate that the document destruction was not routine and might have involved obst justice, sources said. One of the sources said that

some of the material destroyed by Ms. Hall was retrieved, with her help, from the computer banks at the National Security Council. In recent days, government sources have reported that extensive material from the computers,

including National Security Council memorandums to and from Colonel North, had been retrieved. The colonel and others apparently thought that the classified information had been purged.

The material has been turned over to the special prosecutor and to the presidential review board led by John G. Tower, the former Republican senator from Texas. The board's report is expected to be

released Thursday. There were these related develop

● The Senate majority leader, Robert C. Byrd of West Virginia, accused White House officials of involvement in a campaign to cover up the extent of President Ronald Reagan's role in the Iran affair.
"I think there's been a great deal

of lying and cover-up — not by the president himself, I'm not saying that — but it's obvious that those around him have engaged in a great deal of cover-up and deceit in an effort to protect the presidency,"
Mr. Byrd said Friday in an interview with the Los Angeles Times.
While Mr. Byrd would not identify the White House officials he

suspected were responsible for a cover-up, he hinted strongly that he was referring to the White House chief of staff, Donald T. Regan, among others. It was on Mr. Regan's advice, sources say, that the president recanted his original tes-timony that in August 1985 he had approved an Israeli shipment of arms to Iran.

• Mr. Regan was reported by The Washington Post to be nearing dismissal. Several people in the administration and in Congress have been urging his removal because of his handling of the Iran arms affair. After a week of White House turmoil and publicized conflicts with Nancy Reagan, Mr. Regan was described by one Republican source close to the administration

as "all but out the door." ■ CIA Aide Assailed North The Central Intelligence Agency's No. 2 official reprimanded Colonel North in early 1984 for secretly proposing that President Reagan authorize planning to "neutralize" terrorists, The Wash-

saying.

The deputy director of central intelligence, John N. McMahon, Colonel North's was so angry at Colonel North's choice of words - which he feared night and called him an unprint-able name, the sources said.

# Stocks, G-5 Session Steal **Spotlight From New Paper**

By CARL GEWIRTZ

ARIS — Eurobond underwriters fought a losing battle last week trying to win investor attention. The bond market could neither compete with the buoyant stock markets in New York, London and Tokyo nor overcome the wariness about the outcome of the weekend meeting of finance ministers from six leading industrial nations.

This left underwriters sitting on most of the paper they market-

ed last week, but they weren't overly concerned.

In London, bankers were expecting the weekend meeting of finance ministers and central bank officials to result in at least a temporary stabilization of exchange rates. Bankers said that stability should encourage a shift into Eurodollar bonds The only fixed-rate

bonds that seemed to

considered attractive

be selling were

asset swaps.

from lower yielding assets in But in each currency sector. bankers said they saw good reasons why investors should

come flocking back. In Frankfurt, bankers are confident that Deutsche mark bond buyers are poised to pocket additional capital gains. Their theory is that the level of real DM

interest rates, or what is left after subtracting the rate of inflation, is still too high, leaving plenty of room for coupon levels to

decline and bond prices to rise.

As for Euroyen bonds, bankers expect to see increasing demand from Japanese investors who prefer to remain in yen to avoid exchange-rate risks, but are attracted to the higher yields than are on available in the domestic bond market.

Investors, however, were unimpressed with such reasoning and avoided new commitments. This was made clear by the response to the \$200 million of five-year notes offered by General Motors Acceptance Corp., a frequent but popular issuer. The 7% percent notes were priced at 101, or \$1,010 for each \$1,000 security. Allowing for the underwriting fees of 1% percent, the notes were priced to yield about 61 basis points, or 0.61 of a percentage point, over comparably dated U.S. Treasury paper.

Bankers, usually quick to carp at the pricing on issues they have not arranged, assessed GMAC's terms as fair. But investors were not attracted and the paper ended the week at a discount of

NLY THREE OF THE NINE fixed-rate Eurodollar bonds offered last week appeared to be selling, and that was because they were considered attractive asset swaps. The yields were higher than those that are currently available on outstanding bonds of the same maturity from similar-quality issuers, inclining investors to sell what they held and replace it with the new paper. But little new money was being committed to

New Zealand, whose debt is rated double-A, priced its \$150 new Zealand, whose debt is rated double-A, priced its \$150 million of 10-year at 99% bearing a coupon of 8 percent. Less the 2 percent fees paid to underwriters, the paper yielded 93 basis points over Treasury paper, a big pick-up over what outstanding 10-year bonds currently yield. The bonds ended the week down 1.6 points, comfortably within the commissions paid to underwriters, and yielding 88 basis points over Treasury paper.

Bankers who complained about this issue said it was priced too generously and that New Zealand could have paid less.

generously and that New Zealand could have paid less. At the short end of the market, Atlantic Financial, a U.S.

savings and loan association, offered \$175 million of three-year collateralized notes that were backed by U.S. Treasury bonds, agency bonds and cash, giving the issue a triple-A rating.

offered to underwriters with fees of 1% percent to yield 65 basis points over the Treasury curve. The notes ended just within the fees at a discount of 1.3 points.

Macmillan Bloedel, whose debt is rated triple-B, offered its \$100 million of 9 percent, nine-year bonds at 100%. Less the fees of 2 percent, the bonds yielded 175 basis points over Treasury debt and made good fodder for a wap into floating-rate debt below the London interbank offered rate.

The remaining issues languished, particularly the \$250 million, five-year notes issued by General Electric Credit. The paper was priced to yield 32 basis points over the Treasury curve, a level that the market judged too skimpy by far. Numerous investment bankers said they refused the invitation from Union Bank of Switzerland to co-manage the issue, and UBS was estimated to be left holding some \$175 million on its own books. The notes ended the week down 21/2 points.

In the DM sector, the European Community's 5% percent coupon on 300 million DM of six-year notes compared unfavorably with domestic yields of 5% percent and the paper did not

Avis Financial, a unit of Avis Europe that was spun off last year from the American auto rental company, set a coupon of 5% percent on five-year notes and ended the week down 1% points, just inside the underwiting fees of 2 percent.

Increasingly, the market is being used as a means to create See EUROBONDS, Page 9

# **Debt Set** A Record In 1986

### World Bank Sees Global Threat

Compiled by Our Staff From Dispatches WASHINGTON — Third World debt has passed \$1 trillion for the first time and threatens the global financial system, according to the World Bank.

The bank, in its most pessimistic ssessment in years, said in a report released Friday that unless Third World economies expand, relations between debtors and creditors could break down with "consequent lasting damage to the inter-national financial system and world economy."

The bank estimated total developing country debt last year at \$1.035 trillion, compared with \$992 billion in 1985.

The bank said projections for this year showed an increase of 4 percent, to \$1.080 trillion.

Charles Larkum, who heads the World Bank's External Debt Division, said that total debt, when adjusted for inflation, dropped last year. But other officials cautioned that this was no cause for jubila-

The fact that debt did not increase much last year "is not a good thing in these current circumstances," said Jean Baneth, who heads the bank's Economic Analysis and Projections Department.

"It is not a good thing," he added, "because it reflects the drying up of financing following the Mexi-can crisis almost half a decade ago and because it imposed on developing countries an enormous adjust-ment effort."

Bank officials, in the report and in a news briefing, indicated that the global debt initiative launched in October 1985 by the U.S. Treasury secretary, James A. Baker 3d, was not showing desired results.

Mr. Baker proposed new lending to debtor countries by commercial banks and multilateral development banks, and urged a stronger role for the World Bank in dealing with the debt crisis. He said stronger efforts should be made to help countries grow out of their debt problems, contending that austerity programs alone would not be

But lending from commercial banks has dropped in recent year. even as lending from government and intergovernmental bodies such as the World Bank has been increasing. The World Bank lent poor countries more than \$16 bilion in the year ended June 30.

"Bankers' attitudes have hardened," the report says, "and the perceived incentives for further ending have been weakened."

The bank's annual study of poor countries' debt indicated the na-tions had maintained relations with creditors by stalling development and reducing their people's in-

The report said that net transfer of funds from all developing countries to their creditors rose from \$26.3 billion in 1985 to \$29 billion

The outflow reverses the more usual flow of capital from rich countries to poor ones, which al-lows the construction of roads, dams, farms and factories in the poor countries, creating jobs and

raising living standards. The report says sacrifices by the poor commines are not enough to get them growing again and calls for new lending from abroad. (Reuters, AP)

# A Superstar and His Unflashy Firm

Mismatch of Siegel, Kidder May Have Led Both Astray

Cooperation of the former Drexel executive led to actions against

Dennis B. Levine

By William Glaberson New York Times Service NEW YORK — In the days

when Martin A. Siegel was riding high as one of the country's top takeover specialists, junior asso-ciates at Kidder, Peabody & Co. admiringly called him the barra-cuda. He was pretty, he was smooth and he was fast," one of them explained.

He was, in short, all the things that Kidder, Peabody was not. The 122-year old investment bank was decidedly unflashy. It was plagued with uncertainty about the role it wanted to play on Wall Street. And it moved painfully slowly in a financial world that was racing ever faster.

For many years, the mismatch seemed to work. Mr. Siegel brought Kidder to the forefront of the takeover business by per-suading companies that they needed him to defend them against unwanted takeover bids. In the process, the young investment banker became a star.

Mr. Siegel was a Kidder Pea-body man. He arrived there at the age of 23 and did not leave for 15 years. But he outshone his firm in public, gained extraordinary influence in private and grew impatient with its progress.

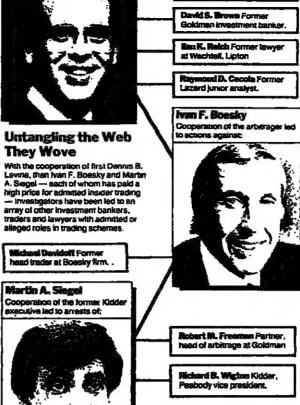

Now, because of Mr. Siegel, Kidder has been drawn into Wall Street's insider-trading scandal. By his own account, he was routinely violating the law, supplying the arbitrager Ivan F. Boesky and, the government charges, Kidder's own traders, with confidential information on corporate strategies. Kidder has not been charged with wrongdoing.

It may be hard to understand why a polished family man who reportedly earned \$2.5 million a year would descend into the world of passwords and bagmen. But to some extent, the tensions between Kidder and the superstar it fostered may have

helped lead both astray. As Kidder struggled to define itself, an impatient Mr. Sieucl may have come to conclude that he did not have to answer to anyone but himself.

contributed to pressures that

In any event, the scandal may well impede Kidder's hopes of becoming a top-tier investment bank. In April, Kidder took a major step in that direction: In exchange for access to several the firm by testifying that he set hundred million dollars of des-

perately needed new capital, it sold an 80-percent interest to General Electric Corp. But now, Kidder's managers are likely to be preoccupied with the scandal for years.

Analysts already had been wondering whether Kidder, even with GE's backing, could make the steep climb into the major leagues of investment banking, which is largely monopolized by

a half-dozen firms. This is not the first time that the firm has had to cope with bad publicity. In 1984, Peter N. Brant, Kidder's \$1 million-ayear stockbroker, embarrassed the firm by testifying that he set

to him by R. Foster Winans, a former Wall Street Journal reporter. Mr. Brant pleaded guilty to criminal charges. Despite the current scandal,

Timothy L. Tabor Former Kidder vice president.

Kidder says that its plans for expansion are still on track. GE has provided a credit line of \$500 million for short-term financing so that Kidder can compete with several other top firms that are moving into merchant banking. In merchant banking, institu-

tions not only advise companies on takeovers and acquisitions but also provide financing, earning huge fees. In 1985, Kidder says, it placed \$500 million of high-yield debt securities. In

# Seoul to Cut Reserves by Paying Debt

By Carl Gewirtz

tel straight

PARIS - South Korea, under increasing international pressure to reduce its growing international trade surplus and large accumulation of reserves, plans to reduce those reserves by repaying some foreign debt.

The role of the newly industrialized nations in running trades surpluses was criticized by finance

INTERNATIONAL CREDIT

ministers of six leading industrial powers who met in Paris over the

Without citing any countries by name, a communique issued by the six stated that "these economies have achieved strong growth based ... on their access to open, growing expost markets."

But the statement said that it was important that these countries assume greater responsibility "by reducing trade barriers and pursuing policies that allow their currencies to reflect more fully underlying

Both South Korea and Taiwan, the other major newly industrialized nation, peg their currencies to the dollar and those currencies have depreciated along with it.

Meanwhile, South Korea antar Financial Corp. of the United Libor.

ranged in 1984, is expensive by to-London interbank offered rate on most of it, and 20 basis points over the prime rate of U.S. banks on the

In all, the Korean Exchange Bank is expected to prepay around \$1.4 billion in the next few months. Foreign lenders see a double purpose in the prepayments - to reduce reserves and international pressure for a currency revaluation, and to soften up the banks in preparation for renegotiating the terms on the remaining debt. The bulk, around \$35 billion, of South Korea's \$44.5 billion foreign debt is owed to banks and most of that at

terms that appear to be too high given the country's financial strength and the lowering of bank charges in other countries. "South Korea today could raise a new loan at a cost of 4 to 4 point over Libor for 10 years," a senior loan officer of a U.S. bank said. In fact, the Koreans are expected to negotiate for a rate of 1/4 point, or

25 basis points, over Libor on existing debt that has eight years or less still to run. In other credit business, Gibral-

Air Canada sold 200 million DM of perpetual bonds. Interest for the list seven years is set at 6% percent. Thereafter, the coupon will be reset every three years at 12-point over the average yield on the threeyear refinancings of four landes-

The current seven-year finance cost is 6 percent, leaving underwriters whose ices total 21/2 percent carning 85 basis points over the domestic cost of money for the first compor period.

Lenders were given an official

tradable bank loans. Both Air Can-ernment would always remain a

A notable aspect of the terms, the lead manager Credit Suisse First Boston said, is that the base for the coupon refixing is a capital market rate rather than a moneymarket rate. Normally, moneymarket rates should be lower than capital-market rates, but on rare occasions the order can be inverted. By linking a capital-market instrument to a capital-market rate, Air Canada reduces the risk that lenders' financing costs could outstrip their income.

Austria set a 20-year life, the longest this market has yet seen, on its 20 billion yen of 5% percent bonds issued at 102. The lead manager, Daiwa Bank, refused to quote a price on where the bonds were

Both the World Bank's sevenyear issue and the six-year issue of SNCF, France's state-owned railroad, ran into stiff resistance thanks to the coupons of 4% percent, the lowest yet seen. Both were offered at a premium of 1011/2 and The Euroyen market, in addition both ended trading 121/2 basis

# T-Bonds Dip As Dealers U.S. Urges Seoul to Allow 2 Plants Wait Out the Weekend

NEW YORK - Prices of Treasury notes and bonds declined moderately Friday as participants moved to the sidelines to await the impact of a moratorium on Brazilian debt, a rate cut in Japan and the Group of Five meeting.

The beliwether long-term bond, the 7.5 percent issue due in 2016, was offered late Friday at 99 10/32, down 7/32, to yield 7.56 percent.

U.S. CREDIT MARKETS That was I basis point, or one-

hundredth of a percentage point, below that of a week ago.
The key long-term note, the 7.25
percent issue of 1996, also fell 7/32. to 100 2/32, and now yields 7.23

Maria F. Ramirez, a managing director and money market specialist at Drexel Burnham Lambert, said, "Many fear that a moratorium on interest payments by Brazil could be followed by the Philip-pines and several other countries that are financially hard-pressed.

"But, as far as our credit market is concerned," she said, "Brazil's action could diminish the likelibood of any tightening by the Fed or other changes in its policy for the foresecable future."

But some analysts, noting that the "ted spread" had widened, believed that the market had already reacted to the Brazilian development. The ted soread is the difference between Treasury bill and Eu-

The pivotal June Treasury bill contract closed Friday at 94.56 and the same Eurodollar delivery at 93.66. This ted spread of 0.96 compared with one of 0.77 early last

"While the recent drop in Trea-sury bill rates has caused the ted spread to widen," Ms. Ramirez said, "it does not mean that there has been a flight out of the certifi-cates of deposit of the banks with

flight," she added. "What may account for the wider ted spread is the fact that the supply of Treasury bills has been shrinking for the past two months."

The discount rate on the 90-day U.S. Treasury bills traded late in the session was 5.47 percent, off a basis point. But the six-month bills jumped 11 basis points, to 5.50 percent, and the one-year bills rose 3 basis points, to 5.61 percent

# How to get more out of the Trib

A brief guide to the International Herald Tribune, the global newspaper, for time-pressured readers.

### The Front Page AN INDEX ON THE WORLD

A perceptive reader once called the IHT

that was meant to de-

scribe the paper as a

whole — but is proba-

an index on the world" – a phrase

bly more appropriate to our front page. Because our audience is so far-flung we

don't look at the news through any national or political filter. We strive for a truly international perspective — a global context for our global audience.

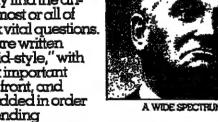

We draw on what is probably the world's most prestigious news-gathering network. In addition to our own reporters in key news centers, we have direct access to the reports of all New York Times and Washington Post bureaus around the world. Plus reports from the Los Angeles Times and the major news services: The Associated Press, United Press International, Reuters and Agence France-Presse.

Nearly 3 million words pour into our newsroom computers every day. A team of 40 professional editors selects, processes and condenses those words down to 3% of the original volume. What the editorial team chooses for page one is the most important news from around the world.

# Who,What,Where, When,Why,How?

We try to be "scan-nable." Look at the first sentence of a Trik news story and you'll probably find the answer to most or all of those six vital questions. Stories are written pyramid-style," with the most important facts up front, and others added in order of descending

subscribe to?

importance — to make sure you get the most information in the shortest reading time. What other tenets of good journalism do we

 Fact is strictly separated from opinion. We keep reporting as objective as possible, with judgments attributed to their sources. Opinions are reserved for the editorial pages.

- Accuracy and fairness are paramount. Our editors spend a lot of time painstakingly checking facts and insuring that different viewpoints are represented, so you can be sure that what you read in the Trib is as fair and accurate as

# American and European Topics

**REGULAR NEWS FEATURES** For those who want to keep up with trends in the U.S., "American Topics" appears each Monday, Wednesday and Saturday, usually on page 3. "European Topics" a similar selection of short,

topical items on Europe, appears every Friday.

The Editorial Pages

A FORUM FOR WORLD OPINION
No, Helmut Schmidt, John Kenneth Galbraith, the Dalai Lama and Javier Perez de

Cuellardo not work for the International Herald Tribune. But articles by them - and by dozens of other world opinion

leaders - have appeared recently on the Trib's editorial pages. THE WORLD LOOKS AT THE WORLD

Carefully separated from the news pages, the editorial pages present a wide range of analysis and opinion from many points of view and from every comer of the world.

On topics of particular international significance, the Trib's own editorial writers express the opinion of the global newspaper. Each day, editorials from The New York Times, The Washington Post and other journals give a sense of how other leading newspapers see the world. Among the widely respected columnists that appear regularly on the editorial page are:

- William Pfaff and Flora Lewis, writing on
- French and European affairs.
- Giles Merritt, writing from Brussels on the European Economic Community.
  U.S. President-watcher David Broder.
- Jonathan Power on the Third World. Cartoonists Oliphant, MacNelly. and a number of other columnists, represent-

ing a wide variety of viewpoints from George Will and William Satire to James Reston, Anthony Lewis and Tom Wicker.

# Special Reports

About 50 times a year, the Trib publishes in-depth reports on countries or topics of particular interest. From the Euromarkets to fashion from Austria to Japan, the reports are of the highest editorial quality. Which is why many readers keep them on file for fu-

### The Features Page A CHANGE OF PACE

Most Trib readers find that their interests transcend the boundaries of any single culture. As the only newspaper specifically edited for the global citizen, the IHT reflects this international focus in its coverage of the arts and leisure.

week, the features page is fresh and different. Hebe Dorsey covers tashion — and the people who make it - on Tuesday.

Wednesday brings "The London Stage," with reviews of British theater.

Every Thursday a special "Science" page covers discoveries in science and medicine.

Friday is the day for the sparkling "Travel" and Weekend" sections. Special travel columns are designed for the frequent traveler, the gournet and the discerning shopper. And the arts and culture coverage gives Trib readers special insight on trends and personalities worldwide.

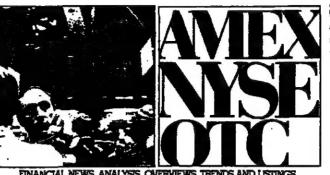

Saturday's fine arts features are highlighted by Souren Melikian's authoritative coverage of the art

# The Business and Finance Section

The Trib's Business & Finance section is now bigger and better than ever. Whatever the subject may be - a basic resource, a major currency, a new productor regulation — the Trib specializes in spotting important trends and spotlights revealing details.

Extensive financial tables include complete daily closing stock prices from the New York Stock Exchange and the American Stock Exchange, plus selected over-the-counter stocks.

Other daily listings include world currency rates, key money rates, commodity prices, futures and a round-up of world stock markets. Monday brings a special listing of Eurobond prices, plus mu-tual funds and a useful OTC list.

And every day of the week now features an exclusive column of special interest to the international business community:

Monday

Eurobonds by Carl Gewirtz, one of Europe's most respected Euromarket analysis. Plus, World Stocks in Review, an overview of trading on major world stock markets and a look at likely developments ahead.

Tuesday International Stock Markets. Investment strategies for the global portfolio. The trends, the probabilities, the "go" signals and the danger

Wednesday International Manager. Sherry Buchanan searches out creative solutions to far-reaching problems that cross national borders.

Thursday Wall Street Watch. Interviews with analysts about how they're playing the U.S. markets.

Technology. The devices, the systems, the scientific breakthroughs that revitalize production and transform services. Saturday

The Economic Scene. Penetrating analyses of the forces that are constantly reshaping the world economy. Plus Friday's closing prices.

World Stock Markets tables.

**Current Interest Rates**

16

wide range of new investment instruments. Each month it presents a fresh and comprehensive report on investment strategies and topics ranging from world stock and bond markets, commodity trading, currencies and real estate to various aspects of personal money

management.

# The Sports Page

The Trib covers all the international sports: tennis, golf, skiing, sailing, motorracing, rugby, soccer. Also the latest stories and scores of American sports.

# The Back Page

Some readers have admitted that they turn to the back page even before glanding at the front page headlines. Hardly surpnsing, as this is where three Pulitzer winners alternate:

— Art Buchwald on Tuesday and Thursday.

— Russell Baker on Wednesday and Friday.

— William Safire, writing on Language each Monday.

 The center-of-the-page feature is selected for its wide appeal and excellent writing. And in the "People" corner, interesting names make irresistible reading, day in, day out.

# The Classified Ads

How many other dailies do you know with classified sections that offer such headings as "Money Management", "Moving", "Tax-Free Shopping", "Air Couriers" and "Precious Stones"? The Trib's classified ads specifically address the needs of an affluent, mobile, international audience.

In the more common categories, you may want to note the following publication days:

— International Executive Positions each

International Real Estate on Friday.
 International Secretarial Positions each

Tuesday.

— Holidays & Travel on Friday. Internațional Education on Saturday. (For a copy of all adsthat appeared in this section last year, request your complimentary copy of the IHT's International Education Guide.) International Business Opportunities, each

Wednesday.

— International Art Exhibitions, Auction Sales, Collector's Guide, each Saturday.

# The Comics page

Everyone needs a change of pace — and that's why the Trib's com-ics page is one of its most

popular.
You'll enjoy keeping up with the daily exploits of Charlie Brown and the rest of the Peanuts gang, Garfield, Dennis the Menace and all the others. others. But that's not all.

DM

S.Sr. 490

"THE LONE BEAGLE"

Rounding out the page are the daily and Saturday crossword, the book review, bridge column, chess problem and jumble word puzzle. And if you're uncertain what to pack for your next trip, consult the world weather report.

# Italy Quits Talks, Threatens Summit

ROME - Italy, protesting that settled. it had been relegated to a rubberstamp position in the Group of Seven industrial nations, boycotted a Paris meeting of the group on Sunday and threatened to derail the group's planned economic summit meeting in Venice in June.

Treasury Minister Giovanni Goria, on orders from the Socialist prime minister, Bettino Craxi, noti-fied the French finance minister, Edouard Balladur, shortly before the Paris meeting opened that Italy would not attend. Mr. Goria and his aides quickly flew back to

Mr. Craxi's office later issued a statement that called Mr. Goria's actions "consistent" and demandaccords, without which the pledges that are undertaken during the summits of the major industrialized nations would risk losing significance and credibility.

VZ

100

alla Show Host

Committee Committee States

In the absence of a clarification, it is obvious that the planned summit in Venice cannot stick to the expected form and terms," the stătement said.

The quarrel began Saturday, when the Group of Five - the United States, Japan, West Germany, Britain and France — met to discuss stabilizing currency-exchange rates and coordination of economic policies.

French officials issued a formal statement denying that a G-5 meeting-had been held. Instead, they said that the nations had met for bilateral talks.

But Italian officials concluded that a supposedly private dinner attended by G-5 officials was in fact a working dinner, where all important issues to be discussed at But Italian officials concluded

the G-7 meeting had already been Antonio Baldini, Mr. Craxi's

diplomatic adviser, said in Rome that Italy's G-7 partners had seriously violated an agreement reached at the last G-7 summit meeting in Tokyo.

At that meeting, the G-5 nations agreed to bring in Italy and Cana-

'How can we have a Venice meeting when this weekend's events suggest it will

serve no purpose?"

- Antonio Baldini Italian official

da, making the G-7, whenever discussions concerned managing the international monetary system.

That agreement was viewed as an important victory for Italy and Canada, particularly Italy, which is about to surpass Britain in the size of its economy. Italy, too, has had a remarkable economic recovery while growth in other Western European nations has stagnated.

Shortly after the meetings ended Saturday night, the new Bank of France governor, Jacques de Laroiere: the Treasury director, Daniel Lebegue, and Mr. Balladur visited the Italian delegation at its hotel.

But they were unable to convince Mr. Goria and Carlo Ciampi, the Italian central bank governor, that

the Italians had a useful role to play in Sunday's talks.

We are asking for clarification and if this is not forthcoming there will be no Venice meeting," Mr. Baldini said. The summit meeting is scheduled to be held June 8-10.

Mr. Craxi's aides said they wanted the clarification before the next meeting of the International Monetary Fund in April, and that it should put to rest once and for all Italy's role in the G-7.

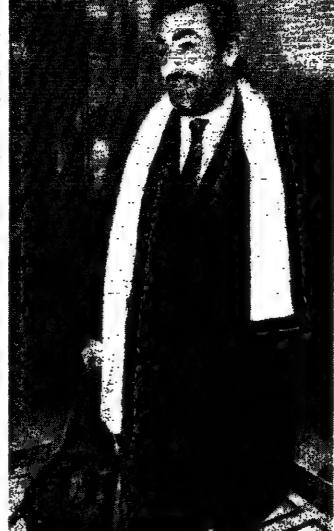

"Italy is very disappointed by the behavior of the Five," Mr. Baldini added. "They are clubbing together and clinging to an outdated privilege. He said the decision to hold a G-5 meeting on Saturday was a snub to Italy.

He added: "How can we have a Venice meeting when this weekend's events suggest it will serve no purpose? This has put into doubt the credibility of the five and the industrialized countries' summits."

Sunday's walkout was not completely unexpected. Italian press reports in the past few days, on which official spokesmen in Rome have declined comment, have suggested Rome's disenchantment with the G-7 procedure and said that Mr. Craxi had instructed Mr. Goria to pull out of the G-7 talks if a G-5 meeting took place first.

"If we have the impression that our presence here is smerfluous. we will take note that the undertaking of the seven heads of govern-ment has not been respected," Mr. Goria told journalists after his arrival in Paris.

Mr. Craxi's five-party coalition faces a confidence vote in early March. The role played by Italy at the weekend meetings was seen as having an impact on the vote. (Reuters, UPI)

Treasury Minister Giovanni Goria of Italy left his hotel in Paris early on Sunday after Italy decided not to take part in a meeting of the Group of Seven industrialized nations.

### PACT: Ministers, Bankers Agree to Stabilize Currencies

central banks might intervene in

the currency markets. Britain's chancellor of the exchequer, Nigel Lawson, called Sun-

day's meeting the "direct linear de scendant of the Plaza meeting." He was referring to the meeting

Sept. 22, 1985, at the Plaza Hotel in New York, where the Group of Five agreed to take coordinated steps, including central bank interventions, to lower the value of the dollar against other major curren-

"Now," said Mr. Lawson, "we have all agreed that the time has come for a period of stabilization and we will act accordingly."

But the U.S. Treasury secretary James A. Baker 3d, said he "was not prepared to call the meeting Plaza-2," as Mr. Lawson suggest-

"The agreement is simply to force stabilization at current lev-

els," Mr. Baker said. He added that "the most difficult negotiations were on the stimulative measures to be taken by the trade-surplus countries."

Monetary experts said it was likely that some agreement on "ref-erence ranges," designed to limit currency movements within specific boundaries, was also reached.

"That is the main question," a Chicago-based foreign exchange dealer said.

"Given the philosophy the Federal Reserve has followed over the past few years," he added, "it is very hard to imagine they have agreed to intervene in the currency markets. The meeting really didn't produce much beyond talk,"

But a senior West German banker disagreed. "The central banks wouldn't risk

their credibility by not backing up a statement like this," he said. "It would make it very difficult to formulate new strategies. Without target zones, how are they going to maintain stability in the market?" Besides emphasizing the need for

more stable exchange rates, the nations also came to general agreement on the need for further coordination of economic policies. as well as Brazil's oil import bill fell

The statement called for: • Greater cooperation between the industrialized nations and the developing world to solve the problems of debtor nations through a

worldwide economic recovery. Promoting more balanced global growth, with "surplus countries" committing themselves to follow policies designed to strengthen domestic demand and to reduce their external surpluses while maintaining price stability.

"Deficit countries," it said, will seek to encourage steady, low-inflation growth while reducing their domestic imbalances and external

Communiqué Highlights

PARIS — Here are highlights of the communique issued at the end of Sunday's meeting of six leading industrial nations:

• "Further progress" has been made since the 1986 Tokyo summit to achieve "sustainable, non-inflationary expansion," although unemployment remains unacceptably high in some countries. Changes in exchange rates "will contribute importantly in the period ahead to the restoration of a more sustainable pattern of current accounts."

 Progress was noted in efforts to reduce budget deficits, introduce fundamental tax reforms and make economies more efficient. Privatization of government assets and business deregulation were other important structural reforms that were being carried forward.

 "Reduction of large, unsustainable trade imbalances is a matter of high priority," and achievement of "more balanced global growth" should be a central role in this respect.

· Participants pledged to step up efforts to resist protectionism and reaffirmed their support for the new round of trade negotiations within the General Agreement on Tariffs and Trade. Greater cooperation was needed between the industrialized na-tions and the developing world in efforts to solve the problems of

debtor nations through a worldwide economic recovery. ● To promote more balanced global growth, "surplus countries" committed themselves to follow policies designed to strengthen do-mestic economies while maintaining price stability. "Deficit" countries will seek to encourage steady, low-inflation growth while reduc-

ing their domestic imbalances and external deficits. "Newly industrialized economies" were now playing an increasingly important role in world trade, but their recent accumulation of trade surplus had contributed importantly to the current problems of global imbalances, thus increasing protectionist pressures. The meeting agreed that these countries "should assume greater responsibility for preserving an open world trading system by reducing trade barriers and pursuing policies that allow their currencies to reflect more fully underlying economic fundamentals.

 Ministers and governors also agreed to "additional refinements" in the use of economic indicators for the multilateral surveillance arrangements approved in Tokyo last May.

### ANALYSIS: The Message of G-5

willing to provide: He promised to increase the size of tax reductions

already scheduled for 1988. In return, the United States promised to continue efforts to reduce the size of its enormous budget deficit, which is widely regarded as fueling the equally huge trade deficit, and to "foster" stability in the foreign exchange market.

Further substantial shifts in exchange rates, the officials stated, "could damage growth and adjustment prospects." They thus "agreed to cooperate closely to foster stability of exchange rates

around current levels." But neither the official statement nor subsequent comments by the ministers gave any indication of what the upper or lower limits of acceptable "current levels" might

be, or how they would be defended.
"The market will be disappointed by the vagueness of the state- and 8 percent against the mark, ment," the treasurer of a leading causing great difficulties for the ex-U.S. bank commented, "and may try to move the dollar lower" on Monday.

But he said in a telephone interview that he doubted there would be any serious attempt soon "to and, by increasing the cost of U.S. test the commitment" to stabilize imports, set off a new wave of inflathe rate.

The next big test of the dollar, he predicted, will come when Washington reports the U.S. trade figures for January and the revised figures for December, which mitially registered a sharp reduction.

"What the market needs now are facts," the banker said, "and if the figures are interpreted as being had, then the markets will test the willingness of central banks to stabilize the rate."

He estimated that officials would tolerate a trading range for the dollar of 1.70 to 1.90 Deutsche marks and of 150 to 160 yen. The dollar closed Friday in New York at 1.8190 DM and 153.55 yen.

From its 1985 high through the end of last year, the dollar dropped 37 percent against the ven and 35 percent against the mark. This year, at its worst, the dollar shed another 6 percent against the yen

port industries in those countries. The decline ignited fears that the dollar was on a runaway downward path that would wreck exports for the Japanese and West Germans tion in the United States.

### Peru Supports Brazil's Move

Agence France-Presse LIMA — Brazil's suspension Friday of interest payments on its \$109 billion foreign debt was a "valiant decision" that vindicated Peru's own policy, President Alan García Pérez of Peru said on Saturday.
"We hope other countries

will adopt the same attitude to limit their payments," he said. Mr. Garcia called Brazil's action "a historic endorsement" of Peru's policy of limiting its. debt servicing to 10 percent of its export earnings. Brazil's moratorium showed "that we

are not lunatics." he said. Mr. Garcia said he had felt since Friday that the Third World debt problem had "reached a breaking point."

DEBT: After Brazil Suspension, Argentina Threatens to Halt Payments (Continued from Page 1)

est of any developing nation, is an estimated \$109 billion. At current interest rates, U.S. creditors would normally receive about \$500 million from Brazil each quarter. If the suspension of interest payments extends beyond 90 days, it would hurt banks' earnings because they would then be required by law to put aside re-

serves to cover overdue payments. The bankers said they had little choice but to put up with some kind of suspension. The enly long-term solution, they noted, was for them to help Brazil devise a plan for fundamental economic reform. in order to lower inflation, increase savings and cool the burst of do-

mestic spending.
"They've got to start negotiating at once to deal with this mess." another international lender said. "Right now, they don't have an

وأخلاجه المرسولات والمارات والمتواوين

economic package to deal with the problems.

Brazil; which has paid no principal on its commercial debt since the country's last financial storm in 1982 and 1983, appeared to have resumed its traditional fast growth rates in 1985 and 1986.

A healthy trade surplus more than covered annual interest pay-ments of \$9 billion to \$11 billion. Both local officials and foreign bankers had predicted that Brazil would soon resume normal horrowing operations.

But a price freeze imposed last February increased purchasing power and stimulated an unprecedented boom in consumer spending. Consequently, exports slumped and imports rose. The country's foreign exchange reserves then tumbled, bringing on the new lebt crisis.

While the announcement seemed aimed at stirring nationalistic feelings, it was criticized by opposition leaders of the right and left. country's foreign exchange reserves debt crisis.

Senator Roberto Campos, planthan \$1 billion in mid-1986, the merchandise trade surplus fell to ning minister under the former military regime, lamented Brazil's unijust \$129 million in January this year, the lowest in four years.
Similarly, in barely 12 months, lateral move, which, he said, was the result of "management incom-

reserves dropped from \$11 billion to less than \$4 billion. Inflation has also soared again in the past three months and is now running at an annual rate of more than 700 per-In Friday's address, Mr. Sarney

insolvency."
A prominent labor leader, Lúis Inacio Lula da Silva, whose Workrepeated a previous position that ers Party has frequently called for a too great an effort to pay foreign total halt to Brazil's debt payments, debt interest would slow internal investment, reducing jobs and thus was also critical. risking social unrest that could threaten the two-year-old civilian announce it from a position of

# 9,200,000 MILES.

Iberia has made fast friends of business travellers all over the globe. Each year, in fact, we fly more than 13 million people, travelling a total of more than 9,200,000 miles. To 81 different cities throughout the world.

We know that to many a weary business flyer, the hours they spend with us on-board are frequently the only restful hours they will spend that day. Which is why Iberia's "Business Class" welcomes travellers with that special touch that turns a routine business trip into a pleasurable journey.

A select bottle of fine wine from Iberia's reknown wine cellar-in-the-sky. A kind gesture, like offering a soft pillow and cozy blanket. Our new catering service that is always accompanied by a warm smile and gracious style. These are the elements that create that very special atmosphere on-board an Iberia flight. Turning Iberia's Business Class Into a world class flying experience.

The next time you fly, ask your Travel Agent about Iberia. You could not make a more sound business decision,

THE HUMAN ONE.

## Frenchman Lowers Record for 200 Meters

LIEVIN, France (UPI) - Bruno Marie-Rose of France set a world indoor record of 20.36 seconds in the 200-meter final at the European indoor track and field

championships here Sunday.

Running in the outside lane, Marie-Rose held off Vladimir Krylov of the Soviet Union to shave .16 seconds off the mark set by Italian Stefano Tili in 1985.

### A Hole-in-One Gives Chen Lead in L.A. Golf

LOS ANGELES (UPI) - T.C. Chen made a hole-in-one Saturday on his way to a 4-under-par 67 that gave him a one-stroke lead after the third round of the Los

Angeles Open golf tournament.
Chen, from Taiwan, stood at 204, 7-under par. Danny Edwards was at 205, and Bobby Wadkins, the first-round leader, was tied with Ben Crenshaw at 206. Chen began the day at 5-under, a stroke behind the second-round leader, Bill Sander, who had a 66 on Friday. But Sander lost his share of the top spot with bogeys on the fifth and sixth holes, and Edwards, who had shot a 64 Friday, faltered with bogeys on Nos. 6 and 8.

Chen used a 6-iron to ace the par-3, 161-yard (147-meter) sixth. He had two birdies and two bogies the rest of the way. He had a 67 Friday after an opening 70.

### De Leon Retains WBC Cruiserweight Title

BERGAMO, Italy (Combined Dispatches) — Carlos De Leon of Puerto Rico retained his World Boxing Council cruiserweight title Saturday as Italian challenger Angelo Rottoli, bleeding from a cut above his right eye, was stopped by the ring doctor before the fifth-round bell.

De Leon, in his seventh defense, was ahead on points when the scheduled 12-

rounder was halted. Rottoh's record is 23-1-2; De Leon is 41-4. (AP, UPI)

### Theatrical by a Neck HIALEAH, Florida (AP) - Theat-

rical led the entire race and held off Long Mick by a neck Saturday to win the \$200,000 Hialeah Turf Cup.

Theatrical, a 5-year-old ridden by Pat Day, outran Duluth for the lead going into the far turn for the first time, and led by a length leaving the stretch run the first time. Heading into the far turn the second time. Duluth

the far turn the second time, Duluth had moved within a head. Theatrical held off that challenge, then another from Creme Fraiche.

Long Mick cut the lead from threequarters of a length to a head in the final 40 yards. The winner was timed in 2:28-3/5 over 11/2 miles.

FORT MYERS, Florida - Yes, Dick Howser conceded, there were a few changes in the manager who won the World Series in 1985. He does not remove his cap in public these American League all-star team. days, and his uniform has been altered because he has lost 17 pounds (7.7 kilograms).

"Don't do it the way I did it," he added, with

**SPORTS** 

a twinge of irony. "Do it some other way." He is not recommending two operations for brain cancer, although he does not mind admitting he came out of the first operation "looking for the Lord" ahead of any of his loved ones. "I'm just glad that happened to me at 50 and not 60 — or when it's too late," Howser said

Saturday, back in his baseball workplace. His blue Kansas City Royal cap was perched he has been told he can go back to work.
"The Lord's going to be the only one who can
take me away from this," Howser said. on his head, not quite hiding the bottom of the five-inch (12.8-centimeter) surgical scar over

his left temple. He has other caps, which he wears on impulse away from the ball park.

"I'd take it off," he said, winking at a few familiar faces in the media swarm, "but it would be a little gross."

There was nothing gross about Richard Dal-ton Howser, not on his first day back to work. not in his 25 seasons in the major leagues, even when he was being left to twist in the wind by New York Yankee owner George Steinbrenner, even when we second-guessers trooped into his office in the 1985 World Series, wanting to know why he had not used his ace relief pitcher, Dan Quisenberry.

Howser more or less deflected that question by winning the World Series a week later, and he has always handled the stress of managing. "This is what I've done best," he said. "I played eight years, I coached 10, and I'll do this at least a couple more years."

He smiled and said he would give only positive answers in the news conference staged so Howser could go through the details one time, and get off the subject for the rest of the spring.

He plans to skip a few away games during spring training, leaving the club in the hands of Billy Gardner, the former manager of Minneso-ta. Howser said he feels fine, "except for being a little tired, a little woozy, in the afternoon," but he expects to manage the chub this season.

He said he was grateful when he awake from the first operation, even though doctors told him, with tears in their eyes, that his form of adding, "If I can't do it, I'll bail out."

The illness was discovered last July, after cancer was the most severe. Howser had suffered headaches and seemed confused about details while managing the

"The first person I wanted to see was a pastor," he said. "A pastor named Jim Wells from Kansas City called my old phone number, and I don't know how he reached me, but he got At St. Luke's Hospital in Kansas City, doctors removed a golf-ball-sized tumor from his brain. They classified it as the worst of four a hold of me.

"But he was not the only one. I've had friends. from Florida, my brother flew to Los Angeles with me for the second operation, there's been a bunch of people. I got 14,000 letters and I'm going to answer every one of them.

"I never spent a day in the hospital before this, but I haven't met anybody that I did not like. Sure, people will say, I'm Dick Howser, so they give me good care, but it's more than them.
There's so many people worse off than and.
What I've seen in hospitals is not a lot of fun." He said he had not been unusually excited about this first day of spring training. But he admitted that the ovation from the faus "hadd of got to me." He had waved his arms and kept

Meanwhile, his players threw and batted and fielded, a perpetual contending team with a manager coming out of surgery.

"Dick has carried us through some bad times in the past," said Jim Sundberg, the caucher.

them in front of his face for a few seconds.

'He's been an inspiration to us now." Howser did not bring up his illness to the troops Saturday. He said, "I just told them, Let's go.' We've got the best team in our division, although some people might disagree with me."

He asserted the strength of his team in the same casual way he has conducted himself. Howser never asked "Why me?" when Steinbrenner let him go. Howser never asked "Wity me?" when reporters packed his office when the did not go to Quisenberry in the World Senda:

If he has asked the biggest "Why me?" of them all, he will not do it in public. "This it a story that heeds to be told," he said: "What the

Lord has done." He spotted a few stragglers who had been delayed in traffic, and he asked them, "Need anything?" Howser was back at work, and that

### Dick Howser: Never a "Why me?" WORLD STOCKS IN REVIEW / Via Agence France-Press.

### Amsterdam

The Amsterdam Stock Exchange staged a modest recovery last week in response to a steadier dollar and the possibility that talks in Paris over the weekend could lead to further

The ANP-CBS general share index moved from 261.2 to 263.9 over the week.

The market is now looking ahead to results from leading companies in the coming weeks, starting with electrical group Philips NV on Thursday.

### Frankfurt

Prices on the Frankfurt stock exchange contimued to decline last week on uncertainties

Dollar weakness at the start of the week triggered a wave of selling orders by foreign investors and sent indexes plunging to 15-month lows.

nance ministers from leading industrial nations would meet in Paris over the weekend

pushed the index up 3 percent.

For the week as a whole, the Commerzbank index lost 18.9 points to finish at 1,742.2.

The announcement by Brazil that it was suspending interest payments to creditor banks weighed heavily on the banking sector. Deutsche Bank AG was down 32 Deutsche marks to 665, Dresdner Bank gave up 14.70 to finish at 349 and Commerzbank lost 12.70 to end the week at 261.30.

### Hong Kong

cute Australian entrepreneur Alan Bond for nisleading statements about the net value of Bond Corp. International Ltd., his Hong Kong unit, whose shares made their debut on the market on Jan. 5.

nnounced that it had bought Financial Square, an office complex under construction in Hong Kong's Central business district for \$244 million.

### London

Hopes that next month's British budget will 534.9, while that of Swiss Bank Corp. dropped to 635.2 from 647.7. so 635.2 from 647.7.

Sentiment was dampened by the amouncement Thursday from Credit Suisse, the confitry's third largest bank, of an unchanged 1986 dividend, despite the fact that net profit last year rose 12 percent to 566 million Swiss francs (\$367.5 million).

fore, despite disappointing retail sales figures for January. Pharmaceuticals, led by Wellcome Foundation Ltd. and Glaxo Holdings PLC. continued to gain ground. But oils were mostly easier because of falling crude prices and British Petroleum Co.'s disappointing fourth quarter results.

Gilts rose to their highest level for five months when rumors of a meeting of the Group of Seven finance ministers in Paris were

### Milan

Political uncertainty and increasingly acrimorious debate about suggested reforms of the local stock market caused further share losses in Milan last week.

Automaker Fiat SpA closed down 1.99 percent and Montedison lost 0.63 percent.

### Paris

Share trading in Paris last week was described as anxious, with sentiment depressed

resurgence or mustion.

The CAC index, after gaining 0.3 percent on Monday to 421.1, fell steadily over the next three days before rising again on Friday to

finish the week at 419.7, almost unchanged

in January forced the index down to 419,4

The Singapore stock market maintained its. bullish trend last week, hitting new records

On Friday, volume hit an all-time high of 63.49 million units for a single day, while the Straits Times Industrial Index surged ahead to

a new mark of 1,061.95 points. It gained more

than 45 points for the week.

Daily volume averaged 56.3 million units, compared to 46.8 million the previous week.

Turnover for the week rose by more than 20

# France Rallies Past England, 19-15; Scotland Wins

LONDON — A try off a brilFrance's lack of discipline under liant interception by Philippe Sells helped France rally for a 19-15 victory over England in a Five Na-tions Rugby tournament match here Saturday. France won its sec-

**FIVE NATIONS RUGBY** 

conversion, two dropped goals and a penalty to England's three penalties and a dropped goal.

In Edinburgh, meanwhile, Scot-

want territor Ret land won its opener against Ire-land, 16-12; co-champions with the French last season, the Scots will Slay in Paris March 7.

Sella's 64th-minute solo try put France ahead by 16-12 and completed its recovery from a 12-3 halftime deficit. England was trying to
create an opening from a loose ruck

The winners' tries came from France ahead by 16-12 and comcreate an opening from a loose ruck near midfield, but Sella intercepted Harrison and Rory Underwood raced back to help fullback Marcus

the goal line.

Although it was not converted, that try settled the match; Philippe Berot and Rose exchanged penalty kicks to complete the scoring.
Sella had also been involved in

France's first try. It stemmed from a scrum inside England's half, and made up for early misses by Hassorum-half Pierre Berbizier, Ily-half tings, and after freiand came back Franck Mesnel and center Sella from a shaky start with Lenihan's fundled the ball in a double scissors try and Kiernan's conversion and Fandled the ball in a double subset of lanker prove that suddenly released flanker. Eric Champ on the open side. Champ's explosive pace took him deep into English territory before he provided a scoring pass for winger Eric Bonneval. Berot converted to make the score 12-all.

England, starting with the wind, showed signs of instant recovery from a 17-0 trouncing by Ineland two weeks previously. The return from injury of Wade Dooley and Steve Bainbridge, the giant second-row forwards, made a big difference. Hinshed off a blind-side run and kick by Rutherford. Kiernan cashed in on a penalty three minutes into injury time.

Scotland (1-0) and Ireland (1-1) are tied for second in the Five Nations standings. Wales is 0-1 and row forwards, made a big difference.

Service WP Report

pressure in the opening minutes. Rose connected on penalties in the first, fourth and 13th minutes.

The marauding English forwards prevented France from finding sustained rhythm, but Mesnel reduced the arrears with a 16th-minute dropped goal. That started a run of dropped goals, the second by English fly-half Rob Andrew and the third — two minutes into the second half — by French fullback
Serge Blanco. That reduced the lead to 12-6 and was the beginning of the end for England.

Scotland defeated Ireland on two tries, two dropped goals and one conversion. The 16-12 victory

scrum-half Roy Laidlaw and wing a pass by Richard Hill; wings Mike Iwan Tukalo after fly-half John Harrison and Rory Underwood Rutherford had connected on two raced back to help fullback Marcus early dropped goals. # IOC Working Against Time to Dispel Storm Clouds Over Seoul Olympics

By Thomas Netter

ional Herald Tribune LAUSANNE, Switzerland -From the plush new marble-andglass offices of the International Olympic Committee, the view of Lake Geneva and the French Alps suggests anything but crisis.

Juan Antonio Samaranch, who as president of the commit-tee rules a multination, multimillion-dollar empire founded on the Summer and Winter Olympics, has just dedicated the headquarters and signed recordbreaking television contracts for 1988. And last week invitations went out for the 1988 Winter Games; preparations in Calgary are moving ahead smoothly. But with the 1988 Summer

Games it's another story. Despite complex mediating efforts by the IOC, the storm clouds that have hovered over the Seoul Olympics for more than a year remain ominous. Eighteen months before the Games begin — and a scant eight months before formal invitations to participants must go out -concern is rife here that politics may again tarnish the Games' gold, silver and bronze medals.

Wielding the threat of another Soviet-bloc boycott, like the one at the Los Angeles Olympics in 1984, North Korea is still demanding a share of the Games awarded to Seoul in 1981, including a split of the opening and closing ceremonies and more events than South Kores and the

IOC are willing to give.

And although the North has apparently dropped its demand for a 50-50 split of events, revemues and ceremonies in response to being offered part or all of four

sports, it wants at least four more.
"Of course we are concerned," says Samaranch, who has been seeking a compromise that

said last week, proposing to North Korea the best conditions they can get to take part in the 24th Summer Olympic Games." So far, the IOC's efforts to resolve the North-South dispute

have been inconclusive. After three trilateral negotiating sessions here in the past year, South Korea and the IOC have offered the North 10 or 11 of the Games 200-odd events - four in table tennis, four in archery, men's (and possibly women's) bicycle road races and one group of the soccer compension.

But at a meeting here this month, that proved to be not enough. On Feb. 12, at the end of a three-day session, the North Korean Olympic Committee's vice president, Kim Yu Sun, said the proposal was "too small," and that his country wanted more events, including wrestling, boxing, gymnastics and rythmic gymnastics, plus more of the opening and closing ceremonies.

Samaranch is remaining firm. "No, no, no, no," he says. "Maybe we can give them part of the volleybal! competition, but the opening and closing ceremonies will be in Seoul. Maybe we can offer some more events to the North Koreans, some small changes. But no more,"

Although Samaranch describes the compromise proposal as "historical and generous," Kim is adament on having more events: "We shall have them."

But the South Koreans seem to have drawn the line. In a response to the North Korean demands, Kim Chong Ha, chairman of the South Korean Olympic Commit-tee, has said the North must allow opening and closing ceremonies to be held in Seoul, must admit athletes, coaches, officials and journalists to Olympic events in

free. "We are doing our best," he the North without restriction, and must renounce any share in television or Olympic emblem revenues. Failure to do so, he says, would mean the South would

deny the North any events at all. The Seoul government and Samaranch appear to feel that po-litical, financial and athletic realities are on their side. Samaranch cites the financial success of the 1984 Los Angeles Games, the new leadership in the Soviet Union that appears more open and less isolationist and concern over the damage to Soviet-bloc athletics that another boycott would cause.

"The position of the Socialist countries is very different than it was a year ago, and if you follow what has been happening in Moscow, you should realize that can only help us," the IOC leader

But Samaranch and other IOC officials also acknowledge it is impossible to rule out a Sovietbloc boycott, and thus are pursuing an intense mediation effort. Samaranch says he will discuss "program considerations" with South Korea in April - indicating that he may suggest giving the North at least one or two additional events.

He has called for a fourth negotiating session between the two Koreas and the IOC later this year, something he vowed he would not do when he proposed a compromise to the North last

Still, he remains optimistic that the dispute will be resolved. "I think the North Koreans have to realize the importance of not having many, but just a few of the events," he says. "But if the South Koreans are ready to give something more, we will also

# Coghlan Sets Record for Indoor 2,000

INGLEWOOD, California -The 2,000-meter run isn't one of Irish-born indoor ace Friday night track and field's best-known races. after he was clocked in 4 minutes. But Eamonn Coghlan says knock-ing four seconds off the world in-

to the rarely-run event. "I knew the record was relatively

Esmonn Coghlan: "Initiative."

soft, but at the same time. I knew I had to run hard to get it," said the Irish-born indoor ace Friday night 54.07 seconds at an international

Meanwhile, Vali Ionescu of Ro-

door standard gives some credence

mania set a world mark in the women's triple jump. Her effort of 45 feet, 8½ inches (13.93 meters) improved on the mark of 13.58 meters, set a year ago in San Diego by Galina Chistyakova of the Soviet Union. "Because the 2.000 isn't run much indoors, people can say it's a constructed race for a record, but now it's a respected record," he said. "When I heard 2:02 announced at the half-mile, I knew I had to get it myself because nobody else was there to force the pace. I was really surprised nobody was [in

front). I think the runners went into the race with a defeatist attitude." Coghlan got no help from the rest of the field in his quest for the record. "When I looked behind me with two laps to go and saw nobody was close, I knew nobody was going to challenge me. I said to my-self, This is too slow. I'm going for the record myself. I've got to take the initiative." If someone breaks the record they're going to have to

Coghlan, 34, is accustomed to trailing the pack and then stealing the race with a withering kick in the last 60 to 80 yards. But he reversed the tactics in the 2,000, which is

equivalent to a mile and a quarter, increasing his lead lap after lap and smashing Steve Scott's record of 4:58.60. Coghlan took command of the

race after three-quarters of a mile; he was timed in 3:59.4 for one mile and at the finish was far ahead of runner-up Dong Padilla, who was clocked in 4:59.78. Ireland's Paul Donovan was

third in 5:00.55, with Scott fourth in 5:03.74. Another Irish runner, Ray Flynn, was fifth in 5:06.44, and John Walker of New Zealand was sixth in 5:07.59.

It was estimated that Coghlan ran his last quarter in 56 seconds, so he was still full of run despite setting the pace.

Coghlan now owns three indoor marks. In addition to the 2,000, he also has the world's fastest indoor time in the mile (3:49.78) and 1,500

meters (3:35.6). Some observers felt Coghlan was washed up last year when he failed to win indoors. He said that he had been weakened by a diet called Est

to Win. "And I lost," he said wryly. He went back to his regular training regimen this season, and apparently is as sharp as ever. He is five-for-five this season with the prospect of winning some more, including the 3,000 meters, or 1,500 meters in the world championship

meet March 6-8 in Indianapolis. "I'm personally very proud to be able to come back from all the setbacks and the pathetic year I had," he said.

# UNLV Wakes Up, Wins 13th Straight

Compiled by Our Staff From Dispatches LAS CRUCES, New Mexico -Nevada-Las Vegas woke up just in time to save its No. 1 ranking. Trailing by 19 at the half, the Runnin' Rebels used Armon Gilham's 23 second-half points and a full-court pressure defense to come from behind and beat New Mexico State, 80-69, on Saturday.
Gilliam, a senior forward, fin-

ished with 27 points as the Rebels ran their winning streak to 13 and their record to 28-1. "We were sleep-walking in the first half," said the Nevada-Las Ve-

gas coach, Jerry Tarkanian. "At halftime I explained to them they had only one chance left. I told them. . . it would be a test of their character." The Rebels apparently got the

Nevada-Las Vegas outscored New Mexico State, 14-2, to start the second half to cut the home team's lead to 45-38.

The press forced seven Aggies turnovers in the first 7½ minutes of the second half, and Gilliam repeatedly turned them into points. Mark Wade, the Rebeis point guard who finished with 13 points, hit three 3-point baskets in the first 10 minutes of the balf.

With 10:04 left in the game, New Mexico State's lead had shrunk to 54-51, and that's when things onraveled totally for the Aggies. Kenny Travis, the guard who had carried the Aggies in the first half with 22 of his 25 points, picked up his fifth foul. Coach Neil Mc-Carthy argued the call and was whistled for a technical.

Freddie Banks, the Rebels senior gnard, then came up with a sixpoint play by converting four free throws and scoring on a reverse teammate sunk the free throws that beat St. John's, 62-60. layup on UNLV's ensuing posses-

(AP, UPI)

effort by Army's Kevin Houston,

Itzhak Perlman in culinary action, making meat loaf: "Basically, fine cooking has a lot to do with chemistry."

By John Rockwell

New York Times Service
NEW YORK — "I care about food"
the violinist Itzhak Periman paused to ponder the mot juste - "in an mtense way." As he spoke his ebullient wife of 20 years, Toby, was circling her index finger near her head, "Sick!" she whispered sotto voce. "Ill!"

An enormously successful virtuoso, the

41-year-old Periman is on tour as much as he wants to be. And while he remains the devoted family man, keeping in touch by telephone with Toby and their five children (3 to 18 years old), he has also been forced to become a restaurant con-noisseur. But when he is home, as he was the other day, he cooks both for pleasure and for utility - to make things he likes

Periman's love of food is apparent in a television commercial be made for Sara Lee croissants that is receiving considerable air time. In it, be cheerfully evinces an enthusiasm for eating that far transcends the dutiful,

the Perimans' 11-room apartment on Manhattan's Upper West Side — even typical in that the family was flying off in all directions the very next day, with Perlman to Puerto Rico to perform, Mrs. Periman somewhere else and 16-year-old Navah (whom the Perimans describe as makes you a sandwich, it's delicious." Classical music is essentially a notated dren, so far at least) gearing up for a art these days: Performers such as Peri-

performance of Beethoven's Third Piano

In the kitchen, 3-year-old Ariella amused herself by tossing slices of zuc-chini as her parents bustled about. Periman was wearing an apron that said "Eat at Itzhak's"; his wife's read "Second Fiddle." Both were gifts from a friend in Florida and hers, apart from whatever metaphorical truth it may contain, happens to be true: Toby Perlman was a violin student at the Juilliard School when she met her husband-to-be.

"You know how I started in this whole cooking business?" asked Perlman rhetorically. "You wouldn't believe it. It started 20 years ago because I believed I was getting overweight. I didn't want to eat all this stuff I was eating. I said, 'You know, I can cook for myself.' The first time I boiled a chicken and cooked it with V-8 Juice. It was quite tasty."

A few years later Periman, who was born in Israel but has lived in New York n enthusiasm for eating that far tran-since his mid-teens, took lessons with Virginia Lee, the late doyenne of Chinese cooking instruction in New York. Since then, he has pretty much done it on his own, experimenting and branching out to all kinds of national cuisines.

"Basically, he's just a good cook," Toby Perlman volunteered. That means anything he touches turns out well. He

REAL ESTATE

"I make do with whatever's in the refrigerator," he said. He added that he and his wife get their food primarily from "excellent" neighborhood supermarkets

rather than ethnic specialty stores.

"I love to reproduce meals I've had in restaurants without learning the recipe," he said as he busied himself with a luncheon dish of capellini with tomatoes and

The Perimans' Manhattan kitchen there is also a new country home - is fairly large and does not seem to have been modified to accommodate the violinist. Periman, who had polio as a child, motors about the house in an electric cart, comes onstage on crutches and plays while scated. Long a spokesman for the rights of the disabled and an advocate of architectural designs to ease access for the handicapped, he seems to make do happily in this kitchen without crutches or cart, pivoting from counter to counter. After hinch, Periman turned his attention to a meat loaf he intended to leave for the children while the parents were

The important thing about this is to saute the onions and then the garlic before you put them into the mest," he said. That way the meat is already flavored when it goes into the oven. The other thing is to put a cup or two of boiling water into the meat as you knead it; it makes it easier to mix. And basically, the more bread crumbs you use, the better it tastes — more finffy."

As a restaurant client, Perlman will eat anything ("He just knows what to or-der," his wife remarked.) His current enthusiasm is for sushi.

"I don't eat alone in restaurants anymore," he went on. "Too many people want to talk. If I'm in a city where I don't know many people, I just go back to the botel room and turn on the TV and fall asleep without ordering anything from

"With Chinese food, you need more people," he said. "You need variety; it's not food for when you're alone. I don't know what it is about musicians and food, but all my colleagues seem to love good food. We tell each other about restaurants we've found. Maybe it's the excitement you feel after a performance. If

the music has been really good, you say,
"Let's go cat something good."

In his cooking, at least, Periman tries to avoid practice. "That's why I started Chinese cooking—it was instant gratification," he explained. "I have no petience. I don't bake, either—I want to have constathing sight energy. With boking have something right away. With baking you have to prepare things in advance." Like any instinctive cook Perlman

seems to derive his greatest pleasure not from dutifully following a recipe, but from the sense of freedom as he creates

"I think, basically, really fine cooking has a lot to do with chemistry," he re-marked. "Whatever you do causes a resc-

### **LANGUAGE**

# A Notational Doozie

By William Safire WASHINGTON - "I'm not known to make many mistakes," said Senator Lloyd Bentsen modestly, in extricating himself from a fund-raising furor, "but when I do, it's a doozie."

This is a botched use of a statement by Fiorello H. La Guardia, the New York mayor: "When I make a mistake, it's a beaut." The Little Flower's confession became one of the great observations in political wisdom, comparable to Woodrow Wilson's suggestion that an opponent in difficulty should not be attacked, expressed as "Never murder a man who is committing suicide."

Doozie is early 1930s slang, occasionally used by senior statesmen, and has a nice art-deco connotation; dipsy doodle; used by President Ronald Reagan jocularly to mean "deception," is from the same era. The definition of doozie is usually "something outstanding or excellent," but the slang word adds zest and enthusiastic emphasis; a second meaning has emerged of "a

Its most common synonym is another slang term, hundinger, first listed in the 1905 Dialect Notes as a term of admiration in Nebraska dialect, the example being, "She's a

hundinger."
Unlike the roots of most slang terms, the roots of doosie are far from obscure: The expensive Duesenberg automobile captured the public imagination during the early 1930s, and a caption in a nostalgic issue of Life magazine in 1983 un-der a picture of the motorcar read: "Doccies like this boat-tailed '33 Speedster purred for Gable and Flynn at 100 mph."

Daniel Schore, senior news analyst for National Public Radio, was the first to notice it. The phrase was buried in one or use duller reaches of the Senate Intelligence Committee report on its preliminary inquiry into the Iran mess.

A research of the Senate Intelligence Committee report on its preliminary inquiry into the Iran mess.

I tried this on a White House ant Colonel Oliver L. North to Vice aide familiar with the most artise Admiral John M. Poindexter contains a "notional timeline," noted

the Senate committee. Notional — consisting of ideas, oncepts, or the more trivial notions the land of syntax. For example, "sex"—the real thing—is notion!

al, while "gender"—the category that tidy linguists use for words—is syntactic, or relational. That sense does not help to figure our what Oliver North had in mind, so

forget it. Notional is an adjective that also means "fanciful, speculative, imag-inary"; could that be what one military man was saying to the other? For help in understanding its appli-cation in this context, I turned to Bernard Trainor, military comespondent of The New York Times. He recognized the usage immediately: "for illustrative purposes" was the meaning in the Penagon

"A notional task force," says Trainor, "is a hypothetical one containing so many ships, so many planes, so many troops. It exists only on paper." Some strategists use it as a highfalutin word to "typical." "typical."

What about the noun timeline!
Only the Oxford English Dictionary (as well as its Supplement) carries the term, which was used by the psychologist William James in 1890 to mean a line of which each undulation or link stands for a cer-tain fraction of a second." The OED Supplement's most recent sense of timeline is a schedule.

Trainor heard about the military use of timeline, too: It is a series of events in sequence, some of which may overlap, within a general ima-frame. For example (mine, not har) in a timeframe of a month, you could have a timefine consisting of one day's bombardment of a target area, a two-day invesion, a week's resupply to secure the area and three weeks of visits by selected correspondents to designated areas for reporting on the victory. Thus, a notional timeline can be a

hypothetical series of events, or in imagined sequence, or a reconstruction for illustrative purposes

geo-strategic jargon. Did the expression nectional timeline mean anything in his world?

The ultra-insider responded immediately: "You mean Offic's

is a word in grammar to denote cockamamie chronology?" He's say what happens in the real world, as candidate for the next noticeal as against relational, what happens in curity adviser.
